By the morning of November 4, 2020 the degree of voter fraud, which has been with us for at least 6 decades in the urban centers, astonished the American public because of the magnitude of the theft. Sensing the public's anger, the benefactors of the corrupt election seized the government buildings in Washington, DC with their occupation secured by cyclone fences, concertina wire and 25,000 troops.

Using the false flag operations conducted by Communists and Anarchists on January 6, 2021, the House of Representatives impeached President Donald J. Trump for the second time on January 13<sup>th</sup>. This was the situation in Washington, DC when the usurper fraudulently took occupancy in the White House on January 20<sup>th</sup>.

Between January 6<sup>th</sup> and January 20<sup>th</sup>, America's elitist rulers tuned out the People's choice and began a celebration of the return to politics as normal. The 'normal' being the wonderful opportunity to sell out your country for personal enrichment, all this being done in the name of the "New World Order". Folks, this is what a Communist Coup looks like, up front and close up.

Meanwhile, tonight, Trevor Louden is exposing the Communists in the White House to the Martin 9-12 group in Stuart, Florida. Mr. Louden is an international, 'Commie Hunter' from Christchurch, New Zealand. He was

the featured speaker at our September 27, 2016 SATP meeting. If Trevor claims there are Communists in the White House, you can take it to the bank, you can be rest assured he has the proof.

And who are these Communists? None other than the shadow government of Barack Obama restored to power by fraudulent means. On the day that the shadow government seized power, the undoing of the Trump Administration's legacy began. The war against America's working middle class was resumed in earnest.

The Republicans really wanted to play to the media and to join the Democrats in restoring the elitist governance. But, in their guts, they knew that without Trump's agenda the GOP is a nothing party...with no morals or values. So on February 13<sup>th</sup>, cowardly Republicans voted, not their true desire to return to the "New World Order" politics, but to cover their butts and they voted for acquittal of the 45<sup>th</sup> President. No act of "Profiles in Courage" here. Don't misunderstand me, I am pleased with acquittal, but many Republicans are not. The acquittal was followed with a total betrayal by the Republican leadership of the legitimate 45<sup>th</sup> President, Donald J. Trump.

As a sideline, on President's Day, February 15<sup>th</sup>, I placed a brand new Trump 2020 flag roadside in front of 'Camp Liberty'. Camp Liberty is the name I have given my rural homestead. Along the last leg my journey home, a 3 mile segment which follows the St. Johns River, many Trump signs and flags can be observed. There appears to be no hurry to take the signs and flags down. I thought it would be good to join my neighbors in supporting the winner of the 2020 Presidential election. I placed the flag as a celebration of the 45<sup>th</sup> President of the United States on President's Day. There is no 46<sup>th</sup> President lawfully elected. Fraud cancels all.

I dwell on the 2020 election theft because to accept it as legitimate would make all future elections meaningless. And yet the further we get from November 3<sup>rd</sup>, the more the conversation among Patriots seems to shift from the fraudulent election to promoting a Republican win in the 2022 and 2024. Folks, there will never be a future election that expresses the will of the people if we don't fix the fraudulent 2020 election.

As if the prior events weren't enough, on February 17<sup>th</sup>. Rush Limbaugh died. There are generations who have not experienced an election without Rush Limbaugh's commentary. The loss of the conservative talk radio legend is enormous.

All of these horrendous events are shrouded with the mask of the China Virus. In fact the fraudulent 2020 election is a direct result of the assault by the Chinese Communist Party's bio attack on the world, specifically on the "Western World" whose focus is on America. A super energized media has instilled a fear that has paralyzed many parts of our country. Manipulating numbers, outright lies and the absence of accurate information have created the appearance of a killer pandemic.

We are currently being told that near 500,000 people died, in the United States alone, from the China Virus. In order for that to be true, the total number of deaths from all causes would have to reflect an increase of 500,000 in the total number of deaths for the year 2020. The statistics show that the deaths from all causes

adjusted for population increases, using CDC numbers, has remained constant through the years 2018, 2019 and 2020. Those are the facts, but those who perpetuate the pandemic death myth rely on pure emotion. The Communists are using fear to take down America.

There was a time that Americans believed that America is the “Home of the Brave”, Freedom isn’t free and only brave Americans can remain free. When I leave “Camp Liberty” and go out into the world, I see the high level of compliance as related to mask wearing and I question whether Americans still have the capacity to remain free. The wearing of masks destroys individuality which is inconsistent with American values. If the Communists can make you wear a mask, then they can make you do anything.

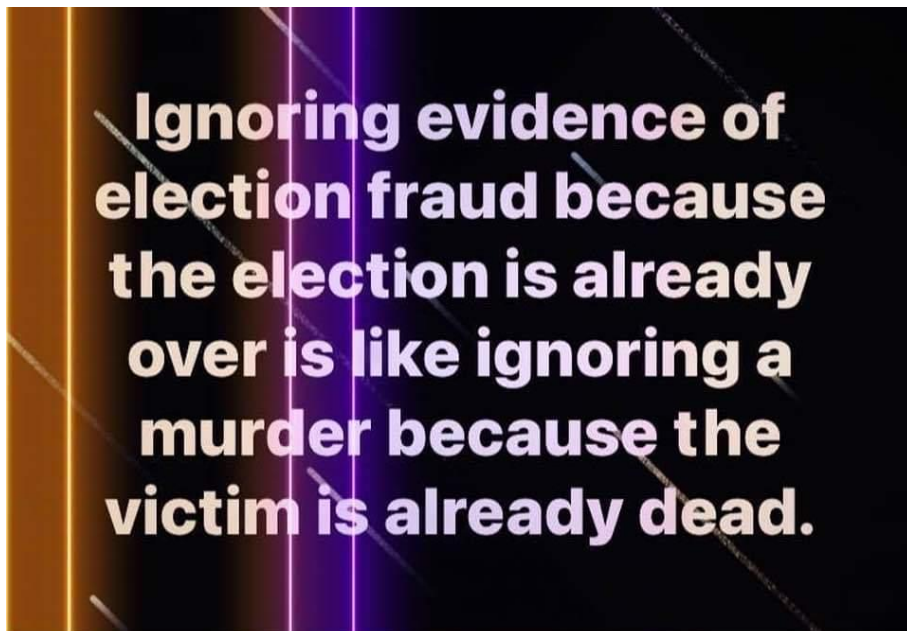

Remember this mask wearing was originally something we needed to do for a few weeks to flatten the curve. Now they are projecting the wearing of masks beyond 2022. The truth is it will never end until the Communists have total power.

Resisting tyranny by noncompliant mask wearing is a push back that individuals can do. I might add it is something you must do if you are to retain your freedom and sense of Liberty.

Resist while you still can.

# Are you Kidding Me?

St. Johns County Commissioner Jeb Smith was the featured speaker at the St Augustine Tea Party's open meeting on Feb. 23, 2021. The hot subject of the day, 'mandatory face masks'. Too bad this front page newspaper picture of a masked beach toll taker, using a fish net to hand out a beach pass, was a week after the meeting. The insanity of this transaction is hilarious. Blue sky, bright sun light and a breeze, as seen by the flag blowing in the wind, are the perfect sanitizers. What say you, Commissioner Smith?

said an old timer. "I was waiting for him to make an altar call."

Not that Commissioner Jeb held any punches. Jeb began his talk by reminding the folks that our Rights come from God, not the government. Choice is the basis of human freedom. Commissioner Smith reminded the audience that the typical face mask is useless. This opinion agreed with the earlier version from the notorious Dr. Fauci, who said that the general public doesn't need to wear a face mask. Jeb said the typical face mask is like a chain link fence keeping out mosquitoes!

Farmer Jeb Smith ran for District 2 as a Tea Party grassroots candidate. His family runs a farm out in Hastings in their spare time. Spare time? Farmers don't have spare time, for sure! He is also the Pastor of God's Way Baptist Church in Hastings, a family church started by his family in 2005.

"Just love the way Jeb interjects his talks with scriptural quotes",

When asked the question at the end of the evening, "Will you run again?" Jeb answered, "If God says so".

Jeb got a standing ovation. Modestly, Commissioner Smith said, "that was the first standing ovation I ever had". He deserved it!

# 2021, WELCOME TO AMERICA 'S SECOND CIVIL WAR

By Robert J. Firth

Get a good seat and buckle up, it's going to be a rough ride. Your first question might be why, didn't we do that once 160 years ago? Yes, but, the reasons today are far direr than back then. At least no one in the North or South wanted to destroy everything; flooding the country with hordes (millions) of illegal scum, turning us all into unarmed subservient slaves of ever larger and more evil and intrusive government, force us to wear absurd and useless masks, take a dangerous vaccine and then hand-over what might remain to Globalists and Chinese communists. Did leave anything out?

Firth Photo

Today, all 74 plus million of us who voted for President Trump knows positively the election was rigged. This is not possible to doubt; the evidence is profound and overwhelming. China , Iran and many in Europe contributed to the effort to switch Trump for Biden votes and the machines were reprogrammed to do exactly that. Congress and the courts refused to stop the steal and, so far, the "re-structured" lefty military brass appear willing to accept orders from a totally illegal administration abandoning their solemn oath to protect the constitution from enemies within and without. Does anyone have a contrary opinion?

So, here's where we are; none of us, those who actually work and pay taxes can find anything whatsoever in common with the devout bent Biden bunch. We despise the lefty media and won't watch or listen to them. Just the sight of their lying faces enrages us. We positively hate (HATE is exactly the right word) Pelooooosi, Schoomer, Shiftless, the demented Biden, his Marxist whore and all those sick lefties who stand with them.

Nothing they want is in any way acceptable to us. We despise their insane lockdowns, their stupid orders to wear a useless mask, the closure of our schools and businesses and none of us will allow them to pump what increasingly appears to be poison into our arms.

We all know the Wuhan flu is more of a common cold than a killer. We know the definitions of "pandemic" was changed by the WHO in 2009 from a contagious and wide-spread disease that kills 10% of the infected to just a wide-spread infectious disease. Of course, that is exactly the definition of the common cold. We know we were "played" by the media and the demoRAT leaders and today their evil act is on the street.

Of course, there are far greater criminals involved in this fake-flu which is indeed a catastrophic worldwide event orchestrated by powerful "satanic" forces. Most of are aware that "true evil" is involved. I do not use or discuss this event using such words absent serious intent. Many, perhaps the majority of us, who voted to keep President Trump in office, are very much spiritual people, aware of our eternal souls and possessing a strong faith in our creator. We absolutely know "evil!"

I know we all see the tragic events we're living in through a clear spiritual lens clearly defining "us" from "them," the forces of evil. We have even gone so far as to color many of them as actual demons, perverts, pedophiles and worse. Stories circulate of John Robert's name appearing on the passenger manifests of Epstein's aircraft heading to rape and abuse children on his private island. Many of those aligned with the Biden steal also have visited that evil island. There are many similar stories such as those describing dark tunnels with chained children where sick demoRATS gather to torture and even murder the kids.

We sincerely hope such are just 'stories'. If they are not, then God help us, EVIL abounds and SATAN rules! His presence is seen and felt in Washington , Hollywood , and the media and deeply embedded in the far-left states and cities. As appalling as such is, it serves to further separate US from THEM. None of us, the 74 million in the RED states, would ever allow SATAN to steal our immortal souls. None of us would ever participate in

spirit cooking like Podesta and Hillary. None of us could imagine supporting Biden or any of the hideous goals of the demORAT agenda.

Clearly, all those who voted for Biden and especially those who participated in the theft of our election, allowing EVIL into the seat of power, are guilty of a massive crime against God and Humanity and they all will be judged accordingly- sooner, if not certainly later.

As the last two months of the admitted criminal Biden demonstrate, there is no way to fix things. We can't and will not ever accept any of this. He and his entire freak show administration are totally illegal and have to go. All like him must be destroyed. The choice is to do nothing and it's assured that they will destroy us. As they opened our border fences, they surrounded themselves with razor wire fences. They have stationed troops to protect them (from us one would suppose) with what they hope are loyal lefty soldiers. However, it's entirely likely that the great majority of the National Guard troops surrounding the Capital are not on their side. We will see.

So, if a war is to be, by whom and how will it come about? First, I believe and hope that common sense will intervene to create a kind of stalemate, a pause, or prelude to outright force of arms. Already, Florida, Texas and many other RED states are confronting Biden refusing to obey his insane edicts. In Texas, Governor Abbott has called out the Texas National Guard to protect the states border with Mexico and stop the flood of Biden scum. DeSantis in Florida told Biden, in fact, to "fuck himself," that's pretty clear.

What I predict is that the RED states will first try to negotiate a kind of legal separation such that we are free to go our way and them theirs. Our tax dollars will be directed internally. Travel and borders will remain open and people will be free to vote with their feet just as now thousands are fleeing California and New York for Texas and Florida.

Many issues will be difficult to deal with such as BLUE state travel bans unless one has taken the masks, vaccinations and other similar insane and humiliating measures. These crazed dictates won't exist in the RED states but will be increasingly enforced in the BLUE states by power-crazed tyrannical demORATS. A new FAA will be set up in the RED states and all other important Government functions including the RED state DOD. All the air carriers based in the RED states will not require masks or vaccinations to fly but, it's doubtful that there will be much air travel between the two countries.

These areas of conflict arising from the separation will continue with many being unresolved. Eventually, two things are bound to occur that will force the two sides to increase the rigidity of separation. The first, and most obvious, will be the constant departure of the more intelligent, productive and better educated from the BLUE states. This will be exactly like the situation between West and East Germany. The Blue states will have to imprison their population which means they will lock-down their borders. Like all socialist states, they

will have to develop a secret police organization to enforce their increasingly onerous regulations. In this, you can be assured that China and the UN will assist sending aid and soldiers along with the ubiquitous cameras to enforce social credits using facial recognition Chinese software.

The second major foreseeable hiccup will be that while the RED productive capitalist states are getting wealthier and the people happier; with almost no taxes collected on the Blue side, where the majority of the population are uneducated "takers," the value of their currency will deteriorate and soon not be accepted anywhere. Starvation could certainly result.

The two above factors create a dangerous and unstable climate for real war. The lefties will have nothing but their military to get what they covet; that being the wealth of the RED states. Of course, both sides are hair-trigger ready to fight. On the RED side, a preemptive attack is in the cards once clear evidence is presented. We will not be caught napping.

This will be a war of God vs. Satan in the most dramatic way possible. The enormous evil of the BLUE states will have reached a point where it is boiling over and leaking. It is intolerable. At this point, a shooting war might be inevitable. I'd guess, by then, there would be some 250 million in the RED states with perhaps 100 million inhabiting the slave BLUE states.

In actual military war fighters, the RED side will have 90% of the active and retired military numbering some 50 million with a modern Air Force and Navy. Both sides are nuclear capable but neither are eager to employ these weapons. The Blues have perhaps 15 million in uniform but they have poor morale and no will to fight. Their equipment is old and most in a state of disrepair. The issue is; will the Chinese communist troops engage with the RED states?

The leaders in the RED states informed China that should they enter into a military conflict on the side of the lefties, 2000 unstoppable 500 Kilo-ton weapons will be unleashed on every Chinese city. So far, they are withdrawing their troops leaving only the UN and Blue mil.

The BLUE government, which by now has become totally repressive and fully communist, seeing China abandoning them, has thankfully waived the white flag. Many of the bent leaders have fled to China and other safe havens. RED states flew in 50,000 soldiers and re-occupied Washington .

Over the past 15 months, some sanity has returned. Food trucks, trains and planes have supplied the starving BLUE states and RED political leaders and workers have taken over all state and local offices. The entire million man secret police force was rounded up and many shot. So far 35 million Illegals were bussed south across the border. The wall has been finished and the hordes turned away.

All who are truly disabled and unable to work are cared for and all those able are put to work- any unwilling have been sent south. Somehow, with God's help, America 's second civil war didn't turn bloody. The obvious

failure of the BLUE states to provide and build a healthy social and economic climate eventually, just as the USSR , Cuba and Eastern Europe under the Soviets, brought them to their knees.

Over the ensuing years, all the major lefty perpetrators were brought to justice. Most were declared traitors by military tribunal and shot. The schools opened absent indoctrination and the damaging far-left unions. All lefty propaganda and those involved in the colleges and universities were sent packing (where? Not in America ).

Anyone espousing the "woke" mind-set was invited to leave, millions thankfully did. Common sense once again prevailed across the now healed land. Churches were open and re-opened, attendance was growing. The rule was that only citizens could vote and only in person with only paper ballots. No one was allowed on the ballot until they had been closely examined for fitness. Candidates had to memorize and recite the constitution and reply to questions on it and civil government.

No lobbyists were permitted to physically visit or meet with any elected representative. Pay was drastically reduced and there was no retirement or special bennies. Any elected official proven to have taken a bribe was summarily shot.

To promote continuity of Government, all terms, including the court, were set and limited to ten years. Campaigning was only permitted for 2 months and no dirty money was permitted to fund any campaign. Financial audits were conducted regularly. No one who had not born in America and had served a minimum of two years in uniform was considered for any public office.

The Democrat Party was disbanded and made illegal. America was now governed by mostly conservative factions where opinions differed but were worked out by sane well-educated individuals with the best interests of the country uppermost. No longer was there any talk of a one world government or climate change. The UN itself was forced to vacate the county. Common sense, Patriotism and America First was the rule of the day! So ended America 's second civil war!

# Open Meeting at Oasis Restaurant CANCELED

We have been trying to get the SJC Sheriff or his close assistant Commander Scott Beaver to address the SATP. We have always felt that the highest constitutional office in our County is someone we want to hear from especially as it regards to the second amendment. It seems that the Sheriff's Department has a policy of promising appearances without actually making a commitment. This happened under Sheriff Shoar some years ago. It is happening today.

We had expected to have Commander Scott Beaver as our featured speaker on March 9<sup>th</sup>, but he has, at this late date, failed to confirm his appearance. This leaves us with no featured speaker for March 9<sup>th</sup> and without adequate time to procure a quality speaker.

**Consequently, our regularly scheduled meeting at the Oasis Restaurant is canceled for March 9, 2021.**

We have also been advised that the March 9 meeting at the Oasis would be the last meeting at that facility. The owner is preparing for the summer seasonal trade and will have no private parties, at least for the Tea Party, available going forward.

We are going into dark days ahead. Our next regularly scheduled meeting is uncertain at this point in time. We'll keep you informed as conditions unfold.

# When All Else has Failed

by John Knapp

The Democrats have morphed into a true monarchy, not that very many of them understand what they've become. They are well on the way to stealing this government and remaking it into something truly awful, yet one more completely corrupt example of Marxist rule. The Founders never could've imagined the current level of distress in these embittered and embroiled, dis-United States.

Knapp Photo

The Left stole the 2020 election. We know they did, they know they did. And they know we know they did. This outrage is going to fester, while the Left undertakes to fix the next election to hide what they missed last time. American elections will now be perpetually as 'fixed' as any tyrannical elite anywhere has ever pulled off. Fair elections are the oxygen of a free republic. Democrats now stand squarely - intentionally - in the way of honest elections. What's past is precedence.

There will be no help from the Washington, D.C. swamp. Some members are corrupt, many are compromised, too many are too confused, or ignorant, or self-serving only, or too cowardly to step up. The corrupted democrats run the show there, including the corrupted Deep State and the corrupted 'Pravda Press'. The primary focus of Washington, D.C., is to protect the swamp at all costs. The Constitution might belong to the We the People, to us naive Americans, but the Swamp stands squarely in the way of abiding by it.

The People's House, the Capitol complex, is surrounded by a 12' fence topped with razor wire and guarded by thousands of seriously-inconvenienced armed militia members, precisely because those hiding behind that fence know they've been up to no American good for a long time, and they know that we know it. There are security details of 4 to 6 people assigned to every elected official. In addition, there are thousands of Capitol Police officers on duty there. Consequently, our Capitol grounds look like a standard state prison complex. Washington D.C. is awash in a democrat sanctimonious-pretend-security photo-op, all of it designed to stand stalwartly between We the People and the Founder's intended republican governance.

There won't be much help from the corrupted judicial system, either. More than 80 court cases were filed against the obviously fraudulent outcome of the 2020 election. Not one judge in any courtroom agreed to

hear the voluminous amount of evidence. Amazingly, 'Plaintiff has no standing' was always the ruling. How can this be, that in 80 courtrooms not one judge reasoned that every American, regardless of voting age, plus each state individually, and all of them together, have profound 'standing', in knowing their republic's elections have been honest and fair? Democrats have contaminated America's electoral process to where American elections are some of the least secure on the planet. Again, democrats stand squarely in the way of honest elections, which are the oxygen of a free republic.

What to do when all else fails or is going to? It's time for pushback wherever and however possible. The Founders built into the Constitution numerous checks and balances to try to address the many abuses of power they knew would come by way of devious rulers. The ninth and tenth amendments to the Constitution are very much a check and balance on a ruling class which obviously intends to do harm to our country and negate our God-given rights. Those two similar amendments were included into the Bill of Rights for the situation in which we now find ourselves.

Joining the Union of the States was never meant to be a suicide pact. Indeed, when Texas joined the Union it was conditional, that Texas could opt out of the Union if one day the majority of Texans so desired. But I am not talking about secession here. If things aren't going to suit you, you can quit a job, quit a marriage, quit your church, break a lease, or cancel a business agreement. If the federal government means to tyrannize the people, We the People don't have to just 'take' whatever comes down the federal pike. There is a limit, a red line.

Which is where the ninth and tenth amendments can be employed, short of breaking the Union and/or provoking a shooting Civil War.? Here is the tenth amendment: 'The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the States respectively, or to the People.' This means States have every right to object - to nullify - abusive federal edicts within their borders. This is a Constitutional remedy to governmental abuse of the Constitution, that such-and-such a federal edict will hereby not apply in a state which so chooses to nullify a particular (or whichever) federal edict its people would deem to be unconstitutional, or at variance with honest, republican government.

Thomas Jefferson thought nullification was a fine idea, one more way to ultimately keep illegal government at bay and still keep the Union solvent. Andrew Jackson, on the other hand, thought all those in favor of nullification should be hanged. Actually, nullification has never been used by a state. It has laid there all this time, dormant in the Constitution, waiting for a time when it was needed. I think that time is now.

So, for the red states, many who have Republican control of all three branches of their state government, please consider nullification as a possible way to blunt all the unconstitutional garbage coming out of the O'Biden Deep State bureaucracy and the outrageous Leftist Congress.

Other things red state legislatures can do: 1) Censure obnoxious democrats in your state; 2) If you reside in a financially-fiscal state, sue the federal government for equal financial treatment in federal spending bills, i.e., it's not likely that Iowa voters joined the Union so they could help finance (bankrupting) Illinois pension plans. Iowans and others should get the same financial benefits as irresponsible Blue States get. It's called 'Equal protection under the law.'; 3) Sue the federal government for unethically favoring Democrat constituency groups (unions) with federal largesse; 4) Sue the federal government for wasteful spending. Is it moral to spend 91% of a nearly 2 trillion dollar spending bill on profligate waste, and follow that up with a huge tax increase on responsible Americans?; 5) Pass a bill in your state outlawing Sanctuary Cities, including the arrest of local leaders should they persist; 6) Pass a law in your state prohibiting the employment of illegal aliens; 7) Sue the O'Biden administration for the total lack of border security. If you catch illegal aliens in your state, put them on a bus and release them as close to the D.C. Capitol complex as possible; 8) Pass a law declaring Antifa and Black Lives Matter to be terrorist groups within your state. Don't be afraid to arrest them; 9) Pass laws affirming the second Amendment in your state. Empower your county sheriffs to arrest any federal agents who come to your state to enforce a bastardized version of the Second Amendment. The right of the people to keep and bear arms shall no longer be infringed in your state; 10) Sue the Supreme Court over their disgraceful conduct depriving Americans of seeing the evidence in court regarding the monumental fraud that surrounded the 2020 election. Sue to finally have that evidence become easily available to all Americans; 11) Pass a law in your state that all elections hereafter will be with proper voter I.D. and on hand-counted paper ballots. No more 'creative', computer app vote-counting in your state; 12) Send no more money to the RNC. Donate to individual Conservative candidates only, or to Donald Trump, where you are much more likely to get your money's worth; 13) Pass a law that no more foreign refugees are to be resettled within your state's borders by the federal government without approval of your state's general electorate; 14) Where possible, start recall petitions on all elected democrats, from dog catcher on up.....

Of course, patriots doing things like the above is not the nature of Conservatives. We didn't start this fire, yet we are beholden to our heritage to put it out. Thomas Paine wrote that it is the duty of a patriot to protect his country from its government. Conservatives must 'up their ante' now, in order to exist.

Just as the American people are (Constitutionally) not to become the spoils of their government, neither is the American government to become the spoils of a power-crazed political party. Thomas Jefferson wrote, 'I consider trial by jury as the only anchor ever yet imagined by man, by which a government can be held to the principles of the Constitution.'

At a White House dinner honoring Nobel Prize winners in 1962, Democrat President John F. Kennedy remarked, 'I think this is the most extraordinary collection of talent, of human knowledge, that has ever gathered at the White House, with the possible exception of when Thomas Jefferson dined alone.'

So, hang Andrew Jackson. Let the nullifications - and the litigations - begin.

# Traditional Town Criers Return

Photos by TCCR Staff

## Demonstrations at their Best

At the last meeting of the St. Augustine Tea Party (SATP), on March 23, 2021, SATP Chairman, Lance Thate, announced that the Town Criers would be returning to their traditional mode of demonstrating in the Historic District of St. Augustine, Florida. The Town Criers are the activist wing of the SATP. Thate explained that during the Obama Regime the Town Criers, early on,

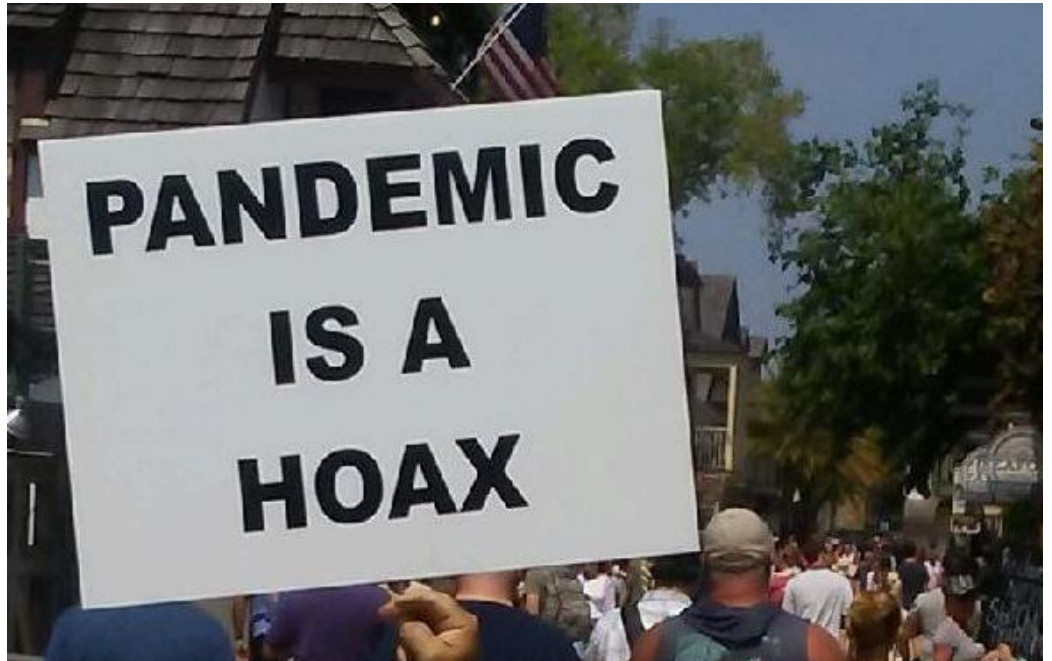

identified Obama as a radical Communist. It was controversial in the beginning, but by the end of the Regime, it was universally accepted. During the Trump administration the Cultural War took a nasty turn in St. Augustine as the Occupiers and BLM Communists, from Jacksonville and Gainesville, invaded the Historic District with the blessings of the St. Augustine Police Department (SAPD) and the City Officials. Since the Town Criers are a small committee, they joined forces with other groups to challenge the Communist intimidation. Thate went on to say, "Militia styled demonstrations were necessary then and they will be required even more, in the future as the struggle for Liberty unfolds. The Town Criers were honored to stand with them then and they will be standing with them in the future. But for now it is believed that our traditional style of demonstrations will be more effective because we have a similar situation as the one at our beginning in 2011. Obama occupied the White House then and Obama is back in the White House now, as his 'Shadow Government' is in control. Washington, DC is an 'Occupied City' and the legitimate winner of the election has been barred with the blessings of the Republican Party."

Photos by TCCR Staff

The most effective tool that the Communists have is the fear associated with that China Virus Pandemic. So in the finest of Town Crier tradition, the Committee began a campaign against the most controversial issue before the Country.

On March 27, 2021, the Town Criers interacted with the tens of thousands of Snow Birds, those on Spring

Photos by TCCR Staff

Break and those in St. Augustine for Easter.

The Tea Party activists believe that a greater number of tourists are visiting this year because of the massive shutdowns in the Slave States in the North. The unemployed have time to travel.

Those imprisoned in the Communist controlled cities of the North, expressed amazement at seeing the freedom in Florida. Although there are signs, posted by our left-wing 'City Officials', all around the city encouraging mask wearing and social distancing. The photographs clearly show that tourists are totally disinterested in what our 'City Officials' think or decree. For them, the breath of freedom is in the air.

Into this environment, the Town Criers projected signs declaring the 'Pandemic Hoax'. The people, upon seeing others standing up for Liberty, are given a new sense of hope. It appears to be a two-way street as the Florida Town Criers were

invigorated by the warm expressions on unmasked faces.

# Pandemic Fraud

## Election Fraud

The Town Criers effectively connected the 'Election Fraud' to the 'Pandemic Fraud' as having been committed by the same people and promoted by the dishonest, distrusted mainstream media.

One final observation, the Saint Augustine Police Department will have a hard time harassing these patriots because they are surrounded by hundreds of people who obviously love them. In the past, on the few occasions that they were challenged, the public always demanded First Amendment rights extended to the Town Criers forcing the Police to back off. Clearly the Town Criers are in their element when they are among 'We the People'. The grassroots Tea Party has always

felt at home when they're among the people. This is just the start of the campaign against the fraudulent 'Shadow Government' in Washington, DC and their Chinese Communist Party Pandemic lies. The Town Criers are blessed to see the awakening of America.
