## **OMG! Only a FOOL wears a Mask!**

The Oldest City in the USA was closed down last year on Sunday, March 15, 2020 due to the China virus scare. The last St. George Street Poll prior the China Virus shutdown was on March 14, 2020, the day before all shops and restaurants were shut down on St. George Street. That was the day the dragon killed St. George!

Photo by TCCR City Gates 3-15-2020

The Press was beating the drums of a pandemic as state and local Governments jumped right into the hysteria and have been hyping the deaths from the virus for the past year. The number of deaths in St. Johns County, Florida, a year from the start of the China virus, is 201 out of a population of 260,000. Hardly, a pandemic. All that hype was generated by a shell game of recounting 'cases'. Yes, everyday, the local newspaper just added to yesterday's number of 'cases'. During the last 12 months there were 21,082 'cases' in St. Johns County. Sound like a

lot? BUT OVER 99% lived. Imagine that!!

Two things are certain on this Fallen Planet, Taxes and Death. There is no escaping death. Death is not a popular subject. In 2019, 2,845,793 people in the United States died of various causes. That is two million, eight hundred and forty five thousand, seven hundred ninety three people who died in 2019. The numbers do not show a jump in 2020.

Surprise! Surprise! “More Government is not the solution, it’s the problem”, according to President Ronald Reagan and anyone with a brain.

Summation of the matter: You are being lied to morning, noon and night, when you hear the newest number of ‘cases’. The propagandists are simply adding up yesterday’s numbers of LIVING citizens who survived. Those who survived the virus total 98% of all who had the China virus. The biggest APRIL FOOL’S JOKE ever!

Easter comes in early April this year. Resurrection Day is the 4<sup>th</sup> of April. Masks are for the doctors and first responders NOT for Free people.

# Burn your Masks... The Pandemic is a Hoax

Photos by TCCR Staff

On April 3, 2021, the St. Augustine Tea Party's Town Criers, again, took to the streets to engage the "Snow Birds" who had descended on the Historic District of the Nation's Oldest City. According to the Town Criers, the crowd this Easter and Spring Break season was the greatest in number in the ten years of their experience. All week long, large numbers of out of state license plates have been observed.

In spite of the warnings from the CDC on travel, large numbers are not following their guidelines. Safety signs posted by St Augustine's extreme left wing officials are also being, rightfully, disregarded.

## Medical Doctor Joins In

TCCR Staff Photo

The family walking away on the left, participated with our Town Crier sign stating, "The Pandemic is a Hoax". The young man, in the red shirt, asked, "Could his wife could take his picture with the sign?"

"Of course," was the reply. Upon the completion of the photo session, the young man revealed that he was a medical doctor working with Covid 19 in the Hospital.

The St. Augustine Tea Party's next open meeting at Norma D's in Hastings, Florida will feature board-certified medical internist, Dr. Stephen Grable. He will be discussing the use of masks, the pandemic and the vaccines. [April 13, 2021 at 6:30 PM 225 North Main Street, Hasting Florida.]

# When you Speak the Truth People's Anger Revealed

TCCR Staff Photos

The St. Augustine Tea Party has been conducting focus groups in the Historic District since 2011. There's something about the mix of people on St. George Street that makes it possible to gauge the grassroots political thoughts in America. The ideas of "We the People", the "Sovereign Force" under the US Constitution, are revealed.

Many of the focus groups are conducted in front of the Columbia Restaurant at the intersection of St. George Street, the main pedestrian walk way in the historic area, and Hypolita Street a thorough fare open to motor vehicles. Fully loaded trolley trains and cars pass, in addition to thousands of pedestrians walking past, creating maximum exposure in the Historic District. Today's focus group was at that corner.

In 2012, the Town Criers warned America about the radical communist, Barack Hussein Obama, who was occupying the White House. At the time, some already knew it; now it is universally accepted as truth. So it is today, many Americans understand that the election was a fraud. Obama's shadow government is hiding behind a frail old man, Biden, whom the people did not elect. And now, after a year of wearing masks and all that nonsense, many Americans know that it was a fraud perpetuated by the Chinese Communist Party's bio attack on the world and specifically America. The communist Democrat party and the globalist elite Republican Party are not serving the sovereign people of America. In fact, they hold them in contempt. The result is anger.

When the People see the signs of the Town Criers, many are awakened and rejoice in the fact that someone is willing to stand up. They are invigorated. They participate. The man pictured upper left, ripped off his mask and threw it on the pavement and stomped on it. So close to the surface is the anger. It can be likened to a scab that has grown over infectious pus. All that is needed is to rip this scab off and cleanse the infection. To Make America Great Again, the cleansing will need to be a return to our founding principles.

Of course, the anger comes from more than one direction. Let's analyze the response to the April 3rd focus group experience. When you attempt to speak the truth, you are met with a certain amount of ridicule. Today Town Criers experienced pushback from less than a handful of people. The criticism centered on the idea that the Town Criers did not know what they were talking about and that they were idiots. No effective or threatening pushback occurred.

About 40 % of the people were indifferent. That leaves a substantial majority of people receptive to our call to "Burn your Mask". Of the majority, some voiced support, some shook hands, some hi fived, some thumbs up or just a warm inviting smile and some, of course, who participated by holding our signs. It is hard to estimate the number of photographs that were taken which will go on to the social networks.

Over the last year or so, some patriotic groups are reporting dangerous situations in the streets. The police have not always been supportive of patriot activity but, rather, prefer to support subversive communist groups imported from Jacksonville and Gainesville. Several arrests have been made from patriot ranks. Although, today a police car was sited, it appeared to be just a routine patrol on Hypolita Street. No incidents whatsoever occurred.

The grassroots Tea Party members are at home among "We the People"; they are part of them. There is a mutual exchange of hope for the future. However, both the Town Criers and the public are aware that a struggle lies before us and they are angry.

# Demand that MLB Sponsors Support Voter Integrity

---

By Joe Ryan

Major League Baseball has sold out America by their attempt to deny common sense voter integrity laws in future Georgia elections. It was the MLB sponsors that allegedly prompted this action. MLB may not care if you boycott their games or the MLB package, (they just opened deals with communist China). We should ask all of MLB's sponsors if they were responsible for the opposing the common sense voter integrity laws in Georgia.

Below is a list of contact for all the MLB corporate sponsors. I am contacting the sponsors' through their Contact, Investor relations, and marketing departments contacts.

<https://www.mlb.com/sponsorship/official-sponsors>

I am sending this message to ALL the corporate sponsors using the links below. Some of the MLB corporate sponsors may not be OK with MLB attempting to threaten Georgia voters. However, it is time to come down on one side or the other, no excuses, non-committal comments and no ignoring the issue

Example of comments:

*Your company is currently listed on several boycott lists because of your sponsorship of Major League Baseball (MLB). You are being subject to a boycott because of your association with the MLB. Your company stands accused of pushing the MLB to remove the Star game from Georgia due to the recently passed voting integrity law.*

*Do you support or oppose MLB's decision to intervene is the decision of Georgia elected officials?*

*If so, has anyone in your corporation actually read the law? If you did, you would know that the law expands voting access while simply requiring proper identification in order to vote. If you do not support MLB's decision, please tell them and let the public know as well. Voter integrity is at the heart of a functioning democratic republic. You must state which side you are on or your silence will be default to the MLB side and the resulting consequences.*

*Voter integrity laws are supported by 75% of likely voter according to recent Gallup and Rasmussen polls. Rasmussen Reports " Majorities of whites (74%), blacks (69%) and other minorities (82%) say voters should be required to show photo identification before being allowed to vote. Voters under 40 support voter ID laws more than do older voters."*

(Anyone still doing business with BOA should stop. BOA is leading the globalist takeover of America, the Social Credit Score and the great Reset. Let BOA why you are ending your relationship with them. If you believe in the Constitution BOA will eventually cancel you, so leave on your terms while you can. )

# The End of the 2<sup>nd</sup> Amendment is a Must for the Left

TCCR Staff Photos

On April 10, 2021, the St. Augustine Tea Party's Town Criers assessed the public's reaction to 2<sup>nd</sup> Amendment concerns in the "Historic District" of St. Augustine, Florida. This was prompted by the renewed attack of Obama's 'Shadow Government' hiding behind the old, frail and incompetent, Joe Biden. Stumbling along, the 'pretend president', Biden, declared that no amendment to the Constitution is

absolute and then proceeded with a list of false claims regarding the Second Amendment. Biden's babbling culminated in a series of executive orders which his delusional controllers think supersede the Constitution's Bill of Rights.

Based on the response to the signs carried today by the Town Criers, substantial support for the 2<sup>nd</sup> Amendment exists. The Town Crier volunteers were widely accepted by their appreciative fellow citizens. St. George Street, the main pedestrian artery in the Historic District, has a unique demographic, national in scope, which has permitted the Town Criers to make very accurate political predictions in the past.

For the Town Criers, the defense of the 2<sup>nd</sup> Amendment in St. Augustine has been going on for the last 8 years. Many of the signs carried on April 10, 2021 were the very same signs carried in 2013, when Obama attacked the 2<sup>nd</sup> Amendment after the Newtown Connecticut school shootings. Now Obama is attacking again through a surrogate.

In order for Obama's promise to 'Fundamentally Transform America' to occur, the public must be disarmed and that requires the termination of the 2<sup>nd</sup> Amendment.

## Free men do not ask permission to bear arms.

'Free men do not ask permission to bear arms' is a concept embodied in the Second Amendment and stands the test of time. It was prevalent in the conversations with the public in 2013 and it is prevalent in the people's spirit today in 2021. According to the Town Criers, there seemed to be a greater passion demonstrated in 2013. Perhaps the issue was perceived more in question at the time. In 2013, people would come up to the volunteers displaying concealed weapons and, in many cases, produced "Concealed Carry Permits" to show where they stood on the right to bear arms. Perhaps Patriots were all a little more naïve back then. Or perhaps, Patriots know that Americans are not as free today as they were 8 years ago, as it didn't happen on their recent outing.

One thing is for sure, the response of the public to the Town Criers is unchanged as can be seen by comparing the current photographs with the photographs from 2013 pictured below.

It is important to distinguish between rights and privileges; privileges can be revoked, rights cannot because they come from Nature's universal God. Pertaining to the 2<sup>nd</sup> Amendment, it is the natural right of every living creature to defend itself. In the case of human beings, self-defense is accomplished often with the use of weapons. The founding documents acknowledged the right to bear arms for self-defense and in the case of tyrannical lawless government, to replace it with force if necessary.

The 'Central Government's Seat of Power', Washington, DC, is now an occupied city. It is the realm of the 'Deep State', both elected and hired. Government buildings are cordoned off with fencing, concertina wire and guarded by armed troops. Arrests are being made of people who participated in lawful assembly on January 6, 2021, so as to discourage 'We the People' from coming to Washington to address the 'Lawlessness'.

Increasingly, 'We the People' understand that it will be our responsibility, not the politicians, to make the corrections. There is a simple solution. We need only to implement our Constitution. Though the remedy is simple, in concept it will not be simple to reinstate. It will require force. Lawlessness preceded revolution in 1775. Lawlessness prevails across the land today. This is not the time when Americans, who are not subject to executive orders, will freely surrender their weapons should government officials attempt enforcing illegal executive orders. The Communists need to terminate the 2<sup>nd</sup> Amendment in order to achieve their goals. Based on what transpired over the past eight years, the Town Criers predict that people will not surrender their weapons. 'The Vast Right Wing Conspiracy' is real you 'Commie Bastards'.

# Biden's White House Occupation Take Down

By Captain Robert Firth

Firth Image

IT IS MY OPINION THAT THE MILITARY LAW MANUAL PROVIDES ALL THE REASONS AND JUSTIFICATION NEEDED for our Military to take this administration down. Chapter II, Para III, covers the issues. Washington, today, is occupied by a foreign power bent on our destruction. That being China who is commanding the illegal president, placed into office under a proven rigged election managed and financed by China and the Democratic Party.

Taiwan today is being threatened. Millions of illegals are flooding across our border, including terrorists, criminals and drugs. Our currency is being debased at an astounding rate. Our Supreme Court is under threat of being totally destroyed. Our history is being erased, statues torn down, books banned and our civil rights taken away. Our Constitution and Bill of Rights are being trashed. Our rights of free speech, travel and assembly are being censored and eliminated. Thousands are dying by forced injection of an experimental drug.

The media is parroting the crooked administration. The administration is planning to make DC and PR into states to totally destroy the two party system. The country is disintegrating in endless sanctioned riots with the DNC abetting in every way. Our law enforcement is under attack. Our country is under attack by A BELLIGERENT AND HOSTILE FOREIGN POWER and the democrats. The plan is for Biden to turn what's left of it over to China.

If this is not sufficient to make the Military act, what is?

# Wuhan Virus Liken to Common Cold

Photos by TCCR Staff

On April 13, 2021, the St. Augustine Tea Party held an open meeting at Norma D's Café in Hastings, Florida.

The featured speaker was Dr. Stephen Grable. Dr. Grable is a 'Board Certified Internist' with many years of practice. Graham disclosed that he has treated numerous patients for Covid 19. [China Virus Ed]

The Doctor went on to liken Covid 19 as a severe cold. Like common colds, people are likely to contract Covid 19 if their immune systems are functioning at a low level. Maintaining high levels of 'Vitamin D' is one of the best protections against contracting the disease, according to Dr. Grable. He also disclosed that treating Covid 19 has greater success rates than some of the seasonal influenza viruses. While there have been deaths attributed to Covid 19, the true cause of death is not the virus but the underlying conditions and complications. Deaths from diabetes, cancers and other diseases are down in about the same numbers that Covid 19 deaths are up.

When statistics are evaluated in terms of total deaths from all causes, there is no indication that the 'Wuhan Virus' has contributed any significant increase in deaths in 2020. The average age at death has remained at the same level and the total number of deaths for all causes has also remained constant through the years of 2018, 2019 and 2020, when adjusted for changes in population. Common sense dictates that the total deaths from all causes would have to increase if the China Virus were an additional factor in 2020.

Tea Party Chairman, Lance Thate, pointed out that the Black Masks of Antifa existed long before the China Virus and now they uniformly prevail in the White House on the members of the 'Shadow Government'. Continuing, Thate said, "The Black Masks are symbols of the Anarchists and the Communists in the same way the 'Swastika' was a symbol of the storm troopers in Nazi Germany. When Patriots confront the Marxists in the streets, they universally wear black masks and Patriots wear none".

# Vaccines of All Kinds are Dangerous

FDA Image

Dr. Grable also expressed his views on vaccines in general and the Wuhan Virus, specifically. In general, if the effects of the disease are more severe than the possible side effects of the vaccines, the vaccine should be considered. He used the example of 'Yellow Fever' to illustrate. However, if the effects of the disease are treatable and not life threatening, the taking of a vaccine should be avoided. According to Dr. Grable, the Covid 19 virus does not warrant the risks of taking a vaccine. This is particularly true of experimental and untested vaccines.

SATP Chairman Thate reminded the members that it was Dr. Grable who was our first speaker after the restaurants reopened on a limited basis after the Florida pandemic shutdown. At the time, political meetings were still banned according to the Governor's executive orders. "The SATP didn't wait for the Governor's permission. Thereby making history, we conducted the first political meeting in NE Florida and maybe in Florida after the shutdown. We filled the dining room. We didn't wear masks. We didn't social distance. We shook hands and hugged each other, just like real people. Our demonstrations on St George Street are revealing that the People are way ahead of the politicians on the Pandemic Hoax", Thate concluded.

# The Goal of Socialism is Communism

On April 24, 2021, the Town Criers, a committee of the St. Augustine Tea Party, made yet another appearance in the Historic District of St Augustine, Florida. The Town Criers have ten years experience in engaging the public. They often carry signs exposing the communists among “We the People”. During most of the last ten years, the most famous radio and television conservative personalities have avoided the use of the word ‘communist’. Often, buying into the misguided idea that with the fall of the Soviet Union, communism ended and that the Chinese could be brought around by engaging them in Capitalist competition. If the word communism was used, there was a widespread belief that no one would take them seriously. So, politically correct terms such as liberal, progressive or simply, “The Left” were substituted for their real identity.

“The Goal of Socialism is Communism” has been used by Marx, Lenin and Stalin, to name a few. The Town Crier’s monthly report has included the quote for about eight years. On a whim, the sign of old was mixed into the current signs declaring the “Pandemic is a Hoax” and the masks as “Symbols of Tyranny”. [Anarchists have been wearing black masks for decades. Black Lives Matter and Antifa’s demonstrations universally wear the black masks. It is a communist symbol for their assault troops in the same way that the swastika was a symbol for the Nazis’ Storm Troopers. Ed]

The great red sign of old appeared to invite some pushback. Communists have no tolerance for truth that doesn’t fit their agenda or that threatens them. Town Criers report that a young man took a swing with a closed fist at sign of old which was followed by another assault on a sign declaring the ‘Pandemic a Hoax’, apparently, displaying intolerance to the ideas that the signs conveyed. This was followed by young college age girls who declared us ‘old white supremacists and racists’, while another group of young ladies demonstrated their IQ by holding one finger up. In general, there were more people pushing back, all wearing black masks, than we had ever experienced without “The Goal of Socialism is Communism” in the mix.

“Lest you get the wrong impression about the pushback; overwhelmingly, the public was a sea of warm, smiling, friendly faces. The pushback was miniscule in comparison to the support which infuriates the communists” Dave Heimbold, SATP Media Chairman reported.

Large numbers of people from all over the country are discovering the unblemished fact that Communists are occupying the White House.

# The Shadow Government is now in Control of the White House

Hello! Is there anyone home? The Commies are in the White House! Yes, we have a dictatorship running the Federal government. What do we do?

First, Just Say No To Joe. This is not a collective act, it's the act of one individual at a time who sets their unmasked face against Uncle Joe. He is called Uncle Joe because Joseph Stalin, who killed millions of people, was referred to as 'Uncle Joe' by Franklin Delano Roosevelt. Some say that FDR was the first communist President of the United States. The Democrat Party is now controlled by communists and the Republicans have no fight in them. So it comes back to the individual, you and me, saying no with the roar of the vast majority and the sovereign authority of "We the People".

Second, the fallback position is the Bill of Rights and the States. The Constitution was signed with the understanding that certain provisions, which limited the powers of the central government, would be enumerated.

So, the first 10 amendments to the Constitution were attached and became part of the Constitution. They limited the power of the Federal government. The 10th Amendment says that any power not enumerated in the Constitution remains with the States and with 'the People'. Ninety million people said no to Joe; they are busy taking care of their families and their own business. Meanwhile, the commies were figuring out how to steal everything from the hard-working American people. Their work is basically to steal your stuff and if you resist, they kill you. The job of the left is to bring hell to Earth. Lying, cheating, stealing, rape, murder incest and a host of other evils are inherent of 'Totalitarian Government'.

Third, each state will have to choose whether it will go with the commies or will stand up for liberty, freedom and the People's rights. Communists must be purged from our government. They have no Constitutional right to serve in government because the required Constitutional Oath of Office demands a pledge to preserve, protect and defend the Constitution without reservation. No communists can do that because everything in their agenda is geared to the collective and the Constitution is geared to the individual sovereign citizen. A Communist never gives up so we must simply eliminate them from every branch of the government.

Fourth, the "Free States" must join together as a 'Front' against the "Slave States" which are in full bloom in California, Oregon, Washington, Illinois, Wisconsin, Michigan, Minnesota, New York and most of New England.

Fifth, the commies, elected, appointed or hired, need to be eliminated from public, governmental offices. Now!
