

"It does not require a majority to prevail, but rather an irate, tireless minority keen to set brush fires in people's minds." –Samuel Adams

Town Crier Committee Report

Vol. 10 No 08

The Truth makes us free...We live in an Era of Lies

May 1, 2021

**Mayday!
Mayday!
Mayday!**

**MAYDAY!
MAYDAY!
COMMIES
TAKE OVER
D.C.!**

TCCR Staff Photo

particularly, the new brain washed generation doesn't have a clue.

Today, May 1, 2021, the St. Augustine Tea Party's Town Criers introduced this sign as they took to streets in the Historic District of St. Augustine, Florida. The Town Criers have been sounding the warning in the Nation's oldest city for the past 10 years. The demographics on St. George Street provide fertile ground for polls, focus group creation and analysis. The middle class, the real force in America, the essence of 'We the People' appear daily from across the country on the historic main pedestrian artery.

"Liberal Frank Luntz uses focus groups to create his globalist agenda and feeds it to the GOP leadership as fact. The Town Criers use provocative signs to stimulate the reaction of everyday citizens. So far, Main Stream Media has failed to tell our story. So we proceed with saving the country, one soul at a time. Our focus group is the real deal", according to a Town Crier spokesman.

FB Image

This Mayday distress call was used by radio operators on land and sea a hundred years ago. It was often used in WW2 (World War Two 1939-1945) movies and newsreels seen in movie theaters in the USA and around the world. Everyone in the 1940s & 1950s knew what the shouting of 'Mayday' meant.

It was a desperate call for Help! Actually, it came from the French word 'm'aider'.

Today, airline pilots, and pilots in general, still use it but the general public,

St. George Street Rocked Against Biden

TCCR Staff Photos

When the Communists demonstrate, a hallmark of their protests is chanting which attracts no one and is designed to shut down free speech and intimidate the majority with a noisy minority presence. The Town Criers never use chanting. However, in a middle-class, 'We the People' environment, it is relatively easy to encourage the public to chant. The most popular chant, for example, is "USA, USA, USA..."

However, the contempt for Biden's occupation of the White House is so great that the public could be heard chanting from the 1803 City Gates at one end of St. George Street to the Plaza at the other end.

St. George Street rocked from end-to-end with "Just Say no to Joe, Just Say no to Joe, Just Say no to Joe..."

TCCR Staff Photos

From the first time the Town Criers hit the street, their acceptance was overwhelming. There were passing cars blowing horns, photographs being taken on the run and constant applause as they made their way through the heavy crowds. The response to their presence is reported as the same as it was all those years ago. People are still insisting on taking their pictures, people still insisting on being included in the pictures and people taking control of the signs and being photographed. The pictures here represent only a portion of what actually transpired. The people on St. George Street this past Saturday, is what a middle-class focus group looks like. And it does not bode well for the Communists in our occupied Capital. The Shadow Government is being rejected and Biden is hated by large numbers.

Public Growing Tired of the Pandemic Fraud

TCCR Staff Photos

Throughout the month of April, the Town Criers have been testing the public's reaction to signs exposing the pandemic as a hoax and testing the public's resolve to continue to conform to mask wearing. [See TCCR V10 N7 <http://saintaugustineteparty.org/pdf/Town%20Crier%20Committee%20Vol%2010%20No%2007.pdf> Ed]

A city employee, who works in the 'Visitors Center', and is sympathetic to the conservative movement, advised the Town Criers that last week someone made a complaint about people encouraging visitors to stop wearing masks. There was concern on the part of that employee, that the Town Criers might experience difficulties. A spokesman for the Town Criers reports that the participants on May 1, 2021, did not encounter any police and they were able to exercise their First Amendment rights unimpeded.

The Town Criers provide a vehicle for people to vent their anger with an unresponsive government that is devouring the people's liberty at an ever accelerating rate. The gentleman in this picture is demonstrating his contempt for Biden's obsession with mask wearing. You will recall that Biden became unhinged when he could not find his mask as the TV cameras rolled on. Biden calls people who wear masks, Patriots. The Town Criers call people who burn masks Patriots.

TCCR Staff Photo

This is what Frank Luntz should be telling the Republican leadership, but then again, this is not what the Republican leaders want to hear as they are complicit with the Democrats in the New World order agenda. Republican Party members and REC members do not, as a rule, engage in Town Crier or grassroots activities.

The conservative movement that began with the emergence of the Tea Parties in 2009 lives on. It lives on in Trump rallies and it lives on in the hearts of the people. A day of reckoning is coming. The people are becoming aware that it is their duty to rise up and destroy the evil that is upon the land. The 'Deep State' is going to need more than cyclone fences and concertina wire to keep out the wrath of the American people.

WHAT THE HELL IS A COMMIE?

By Robert Firth

Karl Marx was an aged, low IQ, non-entity bureaucrat working for a London museum. He and his demented cohort, Ingles, came up with the idea of a classless human society that operated under a governmental construct that made certain no one had anything more than any other and no one owned anything; everything belonged to the state. The government would own all the real estate, all the shops and all the factories. Everyone would be paid exactly the same; from a carpenter making boxes to the highest best trained scientist.

Firth Photo

Ole Karl, (May 5, 1818 - March 14, 1883) the father of 7, wrote many poorly thought out books, such as Das Kapital (3 volumes), The Communist Manifesto and ten or so others critical of any form of private enterprise. His life was relatively difficult as he was never paid enough to provide any kind of decent life for his family. The UK, during his years (and still today) is socially stratified according to one's parents (birthright) one's class (relations) and, more recently, one's wealth. Karl lost on all counts. To say he positively hated his lot and despised the upper classes would be a gross under-statement.

All his writing described the stripping away of the veneer of wealth by using whatever brute force was required to make everyone equally destitute and equally totally dependent on the state for everything. That was his goal and that is what real communism is all about. Nothing of the sort ever happened in the UK or really anywhere else.

When other twisted freaks, like those in Russia during the 1917 revolution, read Marx, they saw immediately that communism was a great scam and a wonderful opportunity to rip-off everything from everybody and, in the process, make themselves enormously rich and powerful- and that is exactly what they did. Lenin, Stalin, Trotsky (et al) using the GRU, NKVD, KGB to the FSB today and Putin, have never even tried to build the bizarre social construct Marx envisioned. They set about, from the first, stealing for themselves everything of any value whilst killing or imprisoning any who objected.

To occupy the peasants and those stupid enough to stick around, they enslaved thousands and set them to digging canals and building concrete monstrosities called soviet cities. They set up government factories making shoddy crap to keep the population busy. They fought a couple of wars and socked away billions for themselves. They, in effect, looted entire countries- their own and any others they were able to enslave.

So, what about China, isn't that a communist country? China is under the military control of the Chinese Communist Party. The only communists are those who are party members, soldiers and/or working for the government. The population of 1.3 (or more) billion are, in the majority, not party members. Most Chinese would like to get rid of the communist government- if they could. The commies running this show have allowed a certain amount of autonomy, such that the economy isn't run strictly as described in Marx's books.

Communism in China is, however, enforced exactly as it was in the USSR by brutal secret police with thousands of prisons and concentration camps. Their goal is to make certain that no one ever tries in any way to oppose their rule and/or their edicts. Everyone in China is under surveillance every day in every place; none can hide. The secret police watch and listen to them all. Step out of line, say anything they don't like and you disappear.

This is exactly what the lefties are trying to do in and to AMERICA and to you! Stop them or, I guarantee, they will absolutely stop you! Never ever vote for any lefty (demoRAT) for any office period! It's them or us.

People Standing Up

A regularly scheduled open meeting of the St. Augustine Tea Party (SATP) was held at Norma D's Café on May 11, 2021 in Hastings, Florida. The featured speaker was Lindsey O'Neill. O'Neill

announced that she is working on creating a Jural Assembly in St. Johns County. Assemblies are forming to call Citizen's Grand Juries that Attorney Generals are failing to call.

If one word had to describe the entire meeting, that word would be enthusiasm. And that enthusiasm centered around a sense of duty. The Tea Party's American flag was, for the first time in its history, flown in a distressed mode. The attendance was less than previous meetings, but what it lacked in numbers it gained in intimacy as people stood up declaring that they will no longer stand by and do nothing. It was the Tea Parties that gave birth to the modern Conservative movement in 2009. While the Tea Parties have been greatly reduced in numbers, the movement that they started lives on in younger enthusiastic patriots.

Donald Trump often spoke about the 'Movement' at his rallies. But he never understood the grassroots nature of the Movement. A communist insurrection has taken place and the President of the United States failed to deal with it. Now the Communists occupy the White House. Patriots are looking for new solutions according comments made by those present at the latest meeting of the SATP. The Nation is in distress.

When you Play the Game in other People's Ball Park

On May 13, 2021, it was discovered that one of our two Facebook pages had been taken down. Our original page, The Town Crier, was created in 2010 and was converted by Facebook, to a page that has 'likes' instead of Facebook friends.

This was done without our having anything to say about it, except to leave Facebook. Since Facebook plays games with who can see our page and who can't, the number of followers and likes moved very slowly to about 2000.

So, I thought that perhaps starting another personal Facebook page would allow a greater following as I could be more proactive. At the time, I tried creating an account using my real name. For some reason, Facebook would not permit it. So I created a Facebook name, Roy Hugo. One of our Patriots helped set it up about 3 or 4 years ago. Roy and Hugo are the first and middle names of my father. Within a few months, I accumulated 5000 Facebook friends. For all this time, I have been posting Town Crier articles on the two pages. In addition, I post on other Patriot Facebook pages. For some reason the administrators of other Patriot sites are more inclined to accept the personal page, Roy Hugo, than they were willing to accept Town Crier. Consequently our articles and meeting notices have been posted by Roy Hugo. With the taking down of Roy Hugo, I'm now blind and without a voice on social media. In addition, Facebook has created a history on what they consider inappropriate postings on Town Crier. There are two subjects you cannot talk about; the pandemic as being a fraud and the election being stolen. Town crier does both; it is only a matter of time before it, too, is taken down.

This isn't the first time our social media publications have been eliminated. Way back when, I was an Examiner [reporter] for Examiner.Com. I posted most of our Town Crier articles on Examiner.Com. When our articles started to gain popularity, Number 1, in the Jacksonville area, Number 5, in Florida and Number 20, in the Nation for political articles, the articles were, in an instant, removed. This occurred sometime in 2015. At the time, the owner, Philip Anschutz, was described as an eccentric reclusive billionaire Republican neocon. Examiner ceased operations in July 2016.

This story is not unique, but I include it because it illustrates the diversity of suppressing grassroots discussion in America. It doesn't matter if it comes from the Communist Party of China, as in the case of Facebook or from the Republican globalists, as in the case of Examiner.Com. When you play in somebody else's ballpark, you have to play by their rules or you lose.

It's Back to Grass Roots, Again!

TCCR Staff Photos

A National Rally, Freedom 515, was called for May 15, 2021. About 30 people from the local area and surrounding counties came to the Plaza de la Constitution in St. Augustine, Florida with Flags flying, supporting the Constitution and rallying against Crazy Joe and his comrades in D.C.

The Good Book says, "Strike the Sheppard and the sheep are scattered". So it was when the cabal stole the election and Trump went into exile. His loyal troops were lost in the woods of media lies. This occurring as the Globalists shut down the economy. We all know the rest of the story. Well, for the sheep it is back to being grassroots, again!

Their Champion was defeated or simply, punted! All are giving him the benefit of the doubt. Everyone knows that the election was stolen. But none realized how backslidden the Country is! Consider the Supreme Court; surely, they would come to Trumps rescue. NO! They said he had "No Standing", whatever the hell that means! The 'People in the Street' simply call it 'The Supreme Corpse' because the court never gets it 'Right'. They took the Bible out of Schools, legalized killing babies and let gays marry. They always ignore 'We the People' and side with the Left.

Take Your Medicine and Shut Up

By Robert Firth

FB Image

THE VAX HAS, to date, DIRECTLY CAUSED AT LEAST (probably many more) 10,000 DEATHS IN AMERICA AND MANY MORE IN EUROPE AND OTHER COUNTRIES. It is not approved by the FDA (no testing, no data) and is "experimental only for emergency use" only. Those getting juiced sign a legal waiver saying they give their informed permission to be experimented on. (only they aren't informed!) The guys making this poison have been granted by government legal immunity so when you get sick or die, tough darts! And most of the drug company employees and management won't agree to take the juice!

The Chinese, Globalist & demORAT plan, as we understand it, is to cajole, bribe and finally force the vax on 70% of Americans. Worst case, which we believe is THE case, is that the vaxed humans will over time lose cognitive function gradually becoming walking vegetables (zombies) and then croak. At that point, the PLA will send in millions of soldiers to finish off the conservatives who refuse the juice and take over the country.

At no time in history have we seen governments engage in such a massive effort to push an obviously harmful drug on their citizens to cure what is clearly a mild variant of the common cold that most people fend off with their natural immunity. Is someone or some "thing" telling (ordering) them to do this? (real aliens, little green men?) Also, to consider, your medical and life insurance may be invalid if you take any "experimental juice!"

How do the experimental chemicals work once injected? What's in them?

The Pfizer vaccine contains copies of highly-purified, single-stranded messenger RNA (mRNA). This RNA holds the genetic code for a specific part of the novel coronavirus. You may have seen pictures of SARS-CoV-2, the virus that causes COVID-19. It has spikes that stick out all over its surface, known as spike proteins.

The mRNA in the Pfizer vaccine codes for an area of the spike protein known as the receptor-binding domain (RBD). The virus uses the RBD on its spikes to attach to your cells if you get infected. This vaccine targets that area directly by teaching your body to make antibodies against it and never goes away, altering human DNA forever. What the results will be on pregnant women (those who may live) and their children is not known by any.

Once the mRNA is in your body, your own cells use it to make millions of the spike proteins. The spike protein is composed of a linear chain of 1,273 amino acids, The CDC has stated that the spike protein of SARS-CoV-2 is harmless, which assures that current Covid-19 vaccines would be safe. But recent studies — in animals and cultured cells — have found that this may not be true. The CDC has stated that the spike protein of SARS-CoV-2 is harmless, which assures that current Covid-19 vaccines would be safe. But recent studies — in animals and cultured cells — have found that this may not be entirely true.

Lipid (oil) bubbles

Tiny bubbles of lipid (oil) surround and protect the mRNA so cells in your body can pick it up. Four types of lipids are used in the Pfizer vaccine:

Lipid nanoparticles are small spherical particles made of lipids into which various “payloads” (in the case of the COVID-19 vaccines, mRNA encoding the SARS-CoV-2 spike protein) can be introduced. These particles are generally less than 100 nm in diameter and made up of—you guessed it—lipids. But what are lipids?

ALC-0315 = (4-hydroxybutyl) azanediyl) bis (hexane-6, 1-diyl) bis (2-hexyldecanoate)

ALC-0315 = (4-hydroxybutyl)azanediyl) bis (hexane-6,1-diyl)bis(2-hexyldecanoate), ... 4-hydroxybutylacrylate comes up as being a corrosive irritant used in industrial paint and plastics/ Just the thing, right?

ALC-0159 = 2-[(polyethylene glycol)-2000]-N, N-ditetradecylacetamide 1, 2-distearoyl-sn-glycero-3-phosphocholine

ALC-0159 = 2[(polyethylene glycol)-2000]-N, N-ditetradecylacetamide. ALC-0159 is a lipid used to make nanoparticles are. Polyethylene glycol or PEG has never been used in a vaccine before

Fetal tissue: Fibroblast cells are the cells needed to hold skin and other connective tissue together. The fetal fibroblast cells used to grow vaccine viruses ARE obtained from aborted human infants. I wonder what God might think of people carrying these cells?

Cholesterol ALC-0315 is the main lipid ingredient. The others are used in smaller amounts to stabilize the bubbles.

The ALC-0315 is hexane containing compound and these are known to be potentially neurotoxin (that doesn't sound good!)

Saline (salt) solution' Salt water works better than plain water for injections. This vaccine uses a common type of saline called phosphate buffer solution, or PBS. PBS will be familiar to people who work in biomedical research. It is often used in vaccines, medications, and solutions containing living cells. It holds the pH and salt levels of the mixture closest that of our bodies, so the injection will be more comfortable when we receive it. Sure so do the initial chemicals used in executing criminals on death row!

The liquid part of this vaccine contains:

Phosphate buffer solution (PBS)

It is a water-based salt solution containing disodium hydrogen phosphate, sodium chloride and, in some formulations, potassium chloride and potassium dihydrogen phosphate.

Potassium chloride intravenous injection is used in suicide attempts and lethal procedures for state-sanctioned punishment

Sucrose (sugar)

Water

These common ingredients are essentially salts and sugar dissolved in water.

The Moderna vaccine: Look these up yourself!

Moderna's vaccine is known as mRNA-1273 in the scientific literature. It can be held at regular freezer temperatures for up to 6 months, making it easier than the Pfizer vaccine to ship and store. It also doesn't need to be diluted right before it's given.

This vaccine is also given in 2 doses. Each dose is 0.5 ml and will need to be administered at least 28 days apart. The vaccine contains the following ingredients.

Genetic material This vaccine also has mRNA that contains the genetic code for the SARS-CoV2 spike protein. Like the Pfizer vaccine, it uses the original virus' genome as a template, but the mRNA in the two vaccines is slightly different. Each company made tiny changes to the genetic sequence of the mRNA they used so the vaccines would produce a stronger immune response. Moderna's mRNA is also produced in laboratory equipment instead of in live cells.

Lipid (oil) bubbles

Again, the bits of genetic material in this vaccine are wrapped in an oily coating. Moderna's recipe for these bubbles has been in the works for years, and, like any great recipe, the details are proprietary. We do know that the ingredients are:

SM-102

PEG2000-DMG

1, 2-distearoyl-sn-glycero-3-phosphocholine (DSPC)

Cholesterol

These lipid packets protect the fragile genetic material along its journey into your cells.

Saline (salt) solution

Instead of PBS, this vaccine uses another common medical ingredient called a tris buffer. The purpose for the buffer is to make the pH level of the vaccine close to that of our bodies. The liquid part of this vaccine contains:

Tromethamine (tris)

Sodium acetate

Sucrose (sugar)

Water

These are common ingredients in many medications, dissolved in water.

Memorial Day

FB Image

It's Memorial Day and we all look to the right words to express our gratitude to those that gave all so that we can live as Americans in Liberty.

Sidney Powell has said it as well as anyone:

“Our freedom, in this marvelous country, is not free. It is not easy. It is not without risks. Sometimes we are called to pledge our lives, our fortunes and our sacred honor.

On this Memorial Day, we remember the massive sacrifices, over our nearly 245 years, of men and women who have given their very lives to protect our freedom. We remember too, the great loss and sorrow of those they left behind.

Yes, we remember it all. We appreciate all of the selfless acts of courage in the most difficult times for our country.

That is why we fight so hard now. We are fighting to preserve this county as founded. It is not a war in a traditional sense but it is nonetheless a pitched battle for survival. To lose this war now would be to tarnish and diminish the sacrifices of our forefathers.”
