

"It does not require a majority to prevail, but rather an irate, tireless minority keen to set brush fires in people's minds." –Samuel Adams

Town Crier Committee Report

The Truth makes us free... We live in an Era of Lies

Vol 11 No 08

May 5, 2022

Truth Matters

On May 5, 2022, the St. Johns County Republican Executive Committee (REC) met at the World Golf Village Conference Center for their monthly business meeting.

For sometime now, Grassroots Patriots from the Saint Augustine Tea Party (SATP), The Republican Liberty Caucus (RLC) and the North Florida Patriots (NFP) have been attending REC meetings and have applied for membership in the REC. Some have been accepted and confirmed as members, others have not. According to the new members identifying as Constitutional Patriots, there is resistance by the "GOP Old Guard Members" as it relates to the new members and there are irregularities in the membership lists. Some have been forced to apply more than once. At the REC meeting on March 3rd, 2022, the April REC meeting was canceled, Jon Woodward attempted to evict a journalist who was videotaping various local candidates that were addressing the REC membership. The candidates were given 3 minutes to make election presentations to the precinct committeemen and committeewomen present. Using video cameras in REC meetings for an event of this type has a long standing as permissible.

Jon Woodard acting in the role of a Sargent of Arms, there is question as to what REC authority he had if any, attempted to force the young reporter from the room. According to an audio copy of a 911 call made, Woodard

Photos told the 911 operator the reporter would not stop videotaping or leave when Woodard told him that he did not have his personal permission to record. Woodard reported that the young man threaten violence when he asserted his "First Amendment Rights" as a reporter and as an individual.

TCCR Staff

Woodard told 911 that there were 20 to 30 militia men present and he feared for the safety of the organization. An organization he avoided defining as the REC.

The only violence that was involved, according to eyewitnesses, was that of Woodard laying hands upon the reporter in an attempt to remove him. Such an act is classified as an assault in Florida. [Florida law classifies Simple Assault as a second degree misdemeanor, with penalties of up to 60 days in jail or 6 months probation, and a \$500.00 fine]

Woodard's exaggerations and false information caused the Sheriff's Department to dispatch 15 deputies to restore order at the REC meeting. When in fact, no violence other than Woodard's own alleged act had occurred. The Constitutional Patriots upon reviewing the audio recording of the 911 call consider it prima facie evidence that a crime has been committed. [False Report of a Crime is classified as a first degree misdemeanor with penalties of up to 1 year in jail or 12 months of probation, and a \$1,000.00 fine.] Sheriff Hardwick has yet to file charges. The Constitutional Patriots doubt that will happen. SATP members have seen this failure to arrest Political Office holders and operatives before under a different Sheriff. It is part of the lawlessness we see today in the political world.

The reform minded Constitutional Patriots are calling for the cleansing of the Republican Party across the Country. They recognize that the old leadership of the party results in a do nothing Party. When Republicans won the House in 2010, they gave us John Boehner. When he proved to be disgustingly cooperative with the Democrat's Marxist agenda, they then gave us Paul Ryan. Ryan continued the New World Order collusion policy. And now the Republicans want the American people to give them the House again in 2022. And if they have their way, the leadership will give the voters Kevin McCarthy and nothing will change. A similar situation exists in the US Senate, and at State Capitals. We will save that discussion for another day. The new Constitutional Patriotic Republicans are determined to make change at the local levels. They claim it's a start at reforming the Party to an Opposition Party as opposed to one of collusion. They are starting the reform process at the only level they can... LOCAL.

Truth Prevails

The new reform minded REC members do not share the same blind party loyalty of the "Old Guard Members".

This was recently demonstrated in St. Johns County, Florida. The new members were not going to accept the heavy handed leadership of the Old Guard and the misconduct of Jon Woodard, a man who has shown his contempt for Constitutional Patriots going back to the formation of the SATP in 2010. A motion to amend the minutes of the March 3rd meeting, by Ronda Brennan to include the actual recording of 911 call and the SJC Sheriff's call history was made and passed. [SJC Sheriff's Office did not

write a report, as the matter was settled on site.] The vote to add the 911 call to the minutes was a smashing success and very revealing. Joe Ryan, a Tea Party member, who also happens to also be a REC member made this evaluation:

“The vote came down to approximately 60% for and 40% against. I talked to several people who adamantly voted against the motion and their primary concern was that putting it in the minutes could harm the Committee and the Party. No one that I heard, at any time, defended the action itself. If I put a conservative estimate that half of the Nays voted that way to avoid the Democrats from using the 911 call to denigrate the REC; than at best only 20% supported Jon Woodard and/or his actions. The fact that it was a voice vote, which was clearly against what the leadership wanted, was also impressive.”

The Patriots of St. Johns County believe by having the evidence included in the minutes, the leadership will have no alternative but remove Woodard from the REC for his unlawful behavior. We all wait to see if the Truth has any place in the political world. It is now up to the REC leadership to prove that they deserve the people’s respect.

Invasion

By Ben Rich

This morning while getting ready for church, the latest information from the Ukraine flashed from the tube. Watching the horror, it suddenly occurred to me that this could easily happen here. What if, like the Russian Federation, a conglomerate of invaders, composed of members from Mexico, South and/or Central American States, were to rush our Southern Border? As a career U.S. Customs Special Agent, I was paralyzed by the concept of instantly losing control of a large part of our nation, from Texas to California, just the same as what the Ukraine has suffered in loss against its Eastern Border! Then the inconceivable reality of an internal conspiracy to assist such an invasion, by the three branches of OUR OWN GOVERNMENT, could cause it to collapse our entire

TCCR Staff

nation without anyone ever firing a shot! But, fortunately the reality of such a diabolical internal conspiracy could never happen in a country defended by a military led and composed of patriot warriors. Just think what would happen if the FBI, CIA, DIS, DIA, AG, and other members of the law enforcement/intelligence community, were to become disloyal to Constitutional defense! Whew, glad that weird idea has passed. Have a wonderful day in the land of milk (as in infant formula), honey (as in killer bees) and freedom (as in entering businesses, or your own Capitol Building, without a mask and/or a body cavity search). Well, gotta go to church and remember to pray for the Ukrainians and other unfortunates.....Ben sends

"The tree of liberty must be refreshed from time to time with the blood of patriots and tyrants."

COVID19 Epidemic in Hastings, FL.

A Report about the Virus without Government or Media Interference

Hastings is an unincorporated community and agricultural center in St. Johns County, Florida. Hastings was founded in 1890 by Thomas Hastings. Hastings is known as the "Potato Capital of Florida" with 21,000 acres of potato farms. This is a story about the effects of the COVID 19 virus on this community.

TCCR Staff

This is not a scientific report. It is simply a story of a community's reaction to what the World Health Organization (WHO) and the US Government are calling a pandemic. At the beginning of the government's pandemic policies, while the rest of the country was shutting down suffering a horrible assault to their individual liberty and freedom and huge financial losses, the Hastings community continued on with going to church, getting their haircut and going about business pretty much as they had always done. The restaurants went through a process that looked more like "passive aggressive behavior" than compliance. People still ate, People still went to church, got their hair cut, shook hands, hugged each other and behaved as human beings behave. There was some social distancing, but very very few masks.

When the State of Florida offered money to set up a COVID testing center in the community; County Commissioner, Jeb Smith, who represented District 2, which includes Hastings, supported the rejection of 1.2 million dollars that the State of Florida offered for a COVID testing center. The center wasn't needed or desired by the community. The testing center was not created.

Eventually the virus, President Trump called the China virus, surfaced within the Hastings community. The closeness of the community caused what could be accurately described as an epidemic. Somewhere between 60 and 90 individuals, perhaps more, were affected. The cases went largely unreported as the infected individuals tended to treat the symptoms as anyone would with the common flu. Depending on the age and severity, treatment varied. Some did nothing such in the case of the very young. Others used Vitamin C and D with zinc to boost their immune systems. Still others used Hydroxychloroquine. Ivermectin or Monoclonal Antibody injections and infusions were the choice of others. Very few COVID infections found their way into the "Statistical Data Base". Exceptions being Monoclonal Antibody treatments that were given to the three oldest members of the group. All of these treatments have been discouraged by the Government in Washington and the Mainstream Media. It appears that people in Hastings preferred to use their own judgment which is deeply based in applying common sense.

All recovered with relative ease. The group ranged in age from 2 years to 85. There was one exception. One individual sought help from a doctor who was following the CDC protocol. He was advised to go home and self quarantine. After about 10 days his condition was much worse and he was admitted to Flagler Hospital in St Augustine, FL. There he was treated according to CDC protocol. The preferred drug is Remdesiver. When his condition deteriorated, he was placed on a ventilator and heavily sedated on December 23,2021. He was kept in this state until the family finally got him transferred, on February 9th. 2022, to a long term acute care facility that specializes in ventilator and feeding tube liberation. We are happy to report that this individual was discharged on May 13, 2022 and is now at home. The struggle continues with months of Physical Therapy ahead.

The Hastings story is a microcosm of the disparity between government intervention in health care and the common sense of the people. It could not be clearer.

NY Times Reports nearly One Million Dead Due to COVID

No doubt there will be those who accuse us of providing disinformation. The reality is that disinformation is coming from our government and the non-functioning media. The New York Times is reporting that 998,000 COVID deaths have occurred in the United States since the onset of COVID in early 2020. Yet if you look at the total deaths from all causes, adjusted for population variances, the total number of deaths per year remain relatively constant between 2019, 2020 and 2021. Without an increase in the total number of deaths from all causes it is not possible to claim the presence of COVID as responsible for pandemic deaths. The truth of the matter people in weakened conditions would have died anyway and the cause of death would have just been listed as something else such as pneumonia or pulmonary heart failure instead of COVID. What the New York Times figure indicates is that 1,000,000 deaths have been assigned or categorized as COVID deaths. During the 1918 Spanish Flu total deaths greatly exceeded the norms. In 2020, they did not.

COVID a CCP BIO Attack on the Western World

It is now clear that the Pandemic inflicted upon the world had its roots in the Obama White House with beginnings of COVID development on the Campus of University of North Carolina. Changing regulations resulted in the transfer of the lab studies off shore to Wuhan, China. This was accomplished with the participation of Anthony Fauci along with US funding. In conjunction with this activity, the Chinese Communist Party (CCP) was influential in having Tedros Adhanom Ghebreyesus, a known radical Ethiopian Communist, who held power in Ethiopia as a member of the Tigray People's Liberation Front was appointed the WHO Director General. During this time frame the WHO changed the definition of a pandemic. Eliminating the death requirement. It is what enabled. Doctor Tedros, as he is called, to declare the COVID 19 release a Photo pandemic.

Public WHO Screenshot

The facts cited above clearly show that Pandemic has been planned for a very long time. The effects of the Pandemic destroyed much of the West's economies by allowing Governments to pick winners and losers. As with all communist revolutions, the middle class must be destroyed and the focus of the Pandemic was on middle class businesses. It also provided the background chaos for the greatest

election theft ever in the United States. The world is now, in the end game of the Progressive Communist Revolution. The famed stained glass image of the tortoise at the London School of Economics, the symbol of Progressive Communism is about to be revealed to the general public. A tortoise representing slow deliberate moves is pictured with the caption, "When I strike, I strike hard". We believe their time is at hand.

When the mandates hit the Country, the "Folks" in and around Hastings just continued on raising their kids, going to church, running their businesses and farming their land. The Propagandist Media had long ago lost its prominence. Hastings is a little microcosm of how to be free. When the time comes, we believe, they will fight. The question is in the great fly over areas of America how many more Hastings exist. We are optimistic. We believe many. The logistical advantage in the coming

conflict for a rebirth of Liberty resides with the producers not in the consumers who reside in the great cities across the land. When the Communist tortoise sticks its head out to strike hard, he may just find out that his cause will be the victim of a well placed head shot.

Are We Really Up To Winning?

By CS Bennett

It is out there for all to see, the wickedness and hatred leaders on the left have for this great republic and those who respect and cherish truth, freedom and liberty, which form three of the four main pillars of this nation, the fourth being the Divine One. Their disdain for truth and decency drips with every word they form with their mouths. Their lust for power and dominion over others have no bound. Their ability to stoop to new lows to achieve their goals and push their agenda forward is something we all should all take seriously.

They are not out to make friends with us or find common ground on what we believe in, as some on our side believe. The liberal progressive mindset, along with the beat of their war drums, have always signaled that they intend to dismantle what the founders of this great nation formed. Much like Al-Qaeda declared war on the United States, and we paid it no mind, that is, not until we woke up one morning to find out that the threat was real all along, and our faces were bloodied. That was the day our eyes were opened. That was the period of time they attacked the World Trade Center, not once, but twice, once in 1993 and then more successfully in 2001. It just goes to show their patience and determination. After that, another threat appeared on the scene called ISIS, and they, too, came after us. Thanks to our Special Operations commandos and the strong leadership of Donald Trump, who allowed our forces to do the job they were trained and borne to do, and without having one hand tied behind their backs, we were able to start taking Al-Qaeda and ISIS out, along with other terrorist groups. In battle, it was them or us, that is what it boiled down to.

Bennett Photo

In the political world today, the lines are well-defined and well-drawn. We cannot look at this as a political party fight but as one involving good versus evil. To prevail, we must stop fighting among ourselves and united against this threat called government overreach. Tied to this threat are the left-wing bias news media outlets, Hollywood, academia, and corporate America. These are the entities that have declared war on us, our traditions, and our culture, and they mean business. I

believe a majority of us know what the stakes are, but some on our side are still thinking this is all about party politics, meaning republicans v. democrats. There are good people and patriotic people on both sides, as there are bad people on both sides, largely RINOs. But when it comes to good v. evil, there is but one side to be on, and that is the side that speaks to truth, liberty, and the preservation of our freedoms, and if you are not on this side of the fight, you are with the enemies of freedom and liberty. I will say, though, that party-wise, there is only one party known throughout its history that has shown a disdain for liberty and freedom, and that is the Democrat Party, the extremist that they have shown themselves to be. It remains this party and their leadership who are pushing this takeover of our traditions, our independence, our freedom of expression, and even our natural identities. Having been born in the city that is the birthplace of our Declaration of Independence and our United States Constitution, namely Philadelphia, it is a personal affront to me. I say that this assault from the left cannot and will not stand. But it is going to take action on our part to defeat it. Our greatest threat has never been from abroad, but from the enemy from within. Since the reign of Barack Hussein Obama, the left have become emboldened and are out of the closet for all to see what their true agenda is, one they once tried so hard to conceal.

As a Spartan king once made his case to his nation of Spartans about the major threat gathering over their homeland's horizon, a threat faced by all of Greece, as well as Sparta, from an evil known back then as the Persian Empire, I make my case to Americans today by saying that this is the time to stand tall and resolute, side by side, shoulder to shoulder, and let those with ill intent know that a line in the sand has been drawn by us and we intend to defeat them as our ancestors defeated the British during the Revolutionary War, the War of 1812, and the Axis Powers of WWI and WWII, especially Nazi Germany and Imperial Japan. When we have strong conservative leadership, and the resolve of the American people, there is no force outside of, or within, the United States, that can defeat her. You probably already know who the main players out front are behind this brazen takeover, and I am sure you suspect who is behind the scenes pushing the buttons and funding it. Let's target them. Again, we know what is at stake. And we know what must be done to fight this evil encroachment of our rights and freedom. So, I ask of you, unite now so that we can win this battle. If we do not make a stand now, we are going down in defeat to the left leaving ourselves subjects of whatever misery they are planning to unleash on us, and you can bet it will be without mercy. It is marching orders time, as we say in the military, my compatriots. It is time to get in its face and look evil in the eye and not blink. America, this is the time, your time, to let the powers that be, and the self-appointed elites, know that you mean business. Believe me, they will take notice. Add the Almighty YAHWEH to the equation, and then they will tremble and surely fear you.

Roe vs Wade

The Left's Talking Points Inspired in Panic

by Calvin Johnson

Since the news came out that Roe verses Wade may be overturned, the Left has become unhinged. I wonder if the supporters of abortion, as they yell and scream, actually listen to what they are saying? If they actually analyzed their statements more carefully maybe they could realize that their narratives are based in either pure emotion or evil and not based in facts and reality, along with love and concern for others. Cases in point.

Johnson Photo

First, "It is my body, my choice". Really? It is not your body, it is an innocent child's body, and do they have a choice or are they at the mercy of the mother?

Second, "Abortion is healthcare." Healthcare is all about preserving life, not the taking of life.

Third, "Do not force women to go to back alleys or use coat hangers." Correction, no woman is forced to have an abortion, so why would any woman in her right mind use a coat hanger or back-alley abortionist that could easily jeopardize her health or life? And is an innocent child so dangerous to warrant this kind of behavior?

Fourth, "This is a matter of privacy between doctor and patient." There is no right to privacy if two people or more conspire to harm another party.

Fifth, "We shouldn't bring unwanted children into this world." Has the Left ever heard of something called adoption?

Sixth, "Some women cannot afford to have children." If someone truly cannot afford a child, then isn't adoption an option or is it that the woman is unwilling to make a change in her financial priorities?

Seventh, "Opposition to abortion is racist toward Black women." Don't Black lives matter? And if that's the case isn't abortion actually an act of racism because it takes the lives of young Black kids disproportionately?

Eighth, "Abortion should be legal in the case of rape, incest and the life of the mother." A rapist should be severely punished for sexually attacking a woman, but is the child that was conceived considered subhuman or is it guilty of anything that deserves execution? And when has an abortion ever saved the

life of a mother? If a mother's life is truly in danger, then a doctor would bring the child on early where the mother could survive along with giving her child a chance. The difference between abortion and bringing the child early is the destination of the child. It either will land in a garbage can to be thrown out with the trash or placed into an incubator where a loving mother is eager to hold it in her arms in due time.

The Time has Come

Nikita Khrushchev's Prediction of 62 years ago is Upon Us:

“Your children’s children will live under communism, You Americans are so gullible... You won’t need Russia to destroy you. You will destroy yourself from within.

Between September 15th and September 21, 1959, Nikita Khrushchev visited the United States. He was the first Soviet Leader to do so. He was particularly interested agricultural and food processing facilities. Khrushchev visited a supermarket outside San Francisco, causing a media frenzy. Khrushchev was swarmed by reporters trying to get a shot of Khrushchev inspecting

FB Images

the great variety and abundance of American produce, meats and deli items along with newly marketed frozen dinners. Khrushchev witnessed first hand the abundance that free people create. But for Communists, it is not about improving the welfare of their people. It is about exploiting them for the benefit of their “Leaders”. So upon his return, Khrushchev did not institute reforms that would improve his people's lot. Instead, he made the prediction above. He could do so, with confidence, because he had first hand knowledge that the “Red Scare”, as it was called then, was real. Discredited Senator Joseph McCarthy was right all along. Communist cells were being created in our seats of power and institutions of persuasion. Fast forward 60 years and Khrushchev’s prediction is materializing under the transformational governance of the Biden- Obama regime. The time has come, America. Permanent food shortages are just around the corner. There is a “Domestic War” for your life going on. STAND UP, RESIST AND FIGHT.
