Dartmouth Sails to Palatka

The Saint Augustine Tea Party (SATP) entered its 38 foot replica of the Dartmouth in the Palatka Memorial Day Parade which was held on May 30, 2022. The Dartmouth was one of three ships from which Tea was thrown into Boston Harbor in 1773. The event is known, today, as the Boston Tea Party.

For nearly 30 years the City of Palatka, Florida has celebrated the Memorial Day weekend with the Blue Crab Festival which features vendors and food trucks with plenty of blue crabs, carnival rides, fireworks and this year the Gatorland Water Ski Show and a New Orleans-style brass band. In recent years the festivities ends with a Memorial Day Parade through the streets of Palatka on Memorial Day. Parade coordinators report that this year had the largest number entries in the history of the parade.

TCCR Staff Photos

Dartmouth's First Appearance on the Streets of Palatka

The SATP made its first public encounter with the people of Palatka by relying on its best tradition. Town Criers were present in their colonial attire. As it was in the Town Crier's beginning, ten years ago, Constitutions were handed out to the parade attendees along the way.

The Dartmouth has been in several parades in Hasting, Florida. Hastings is a small community just East of Palatka. Hasting has a substantial Black population. The parade

TCCR Staff Photo

audience in Hasting was populated with at least 50 % Black Americans. The SATP expected the same in Palatka because Black Americans make up the majority in Palatka. The Town Criers report that the Black community simply wasn't present for the Memorial Day Parade. They estimate. 5% or less of the audience were Black Americans. However, those present we're very supportive. One Black individual honored the SATP with his salute. The Town Criers expressed concern, ***"It was like half the population did not turn out for the Memorial Day parade. Black Americans. have given their lives in the defense of Liberty from the beginning of the revolution to the current day. We are troubled by their lack of attendance. It doesn't speak well for the troubled times ahead. We need our Black Brothers to join us in the defense of Liberty."*** Contrary to the propagandist Media's disinformation, some of the early Tea Party Leaders were Black Americans and the Tea Party has always had a Black outreach program.

TCCR Staff Photos

Many in the public thanked the SATP for joining their Memorial Day Parade.

Say "Hello" To Communism-in-your-Face!

By David Heimbold

Yes, Fellow Americans you have been caught in the net of real-live Communists!

You might call this a commie trifecta, with a big payout! The Presidency, the Senate and the House in the Federal Government are totally controlled by Democrat-Communists! Worse than that,

is that the Joint Chiefs of Staff in our military are traitors who swallowed the race-baiting poison. The Chief of Staff, himself, says he has to look into his 'whiteness' and is seeing a psychiatrist. Can you believe that?

Pictured above is, Trevor Loudon, internationally known Communist hunter and author, with Tea Party Dave on the left and Publisher, Lance Thate, on the right, taken several years ago, in Florida.

Trevor used to live 'down under' but now that Australia and New Zealand and 'down under' have gone under the Communist yoke with lock-downs, the fake internationally inspired pandemic holds their Land, lock and key! So, Trevor is hanging out in the USA for now and is trying to jump-start a 'politically backsliding generation of Americans.

There is an old political cliché that goes something like this, 'A strong leader, a weak people' and vice versa, "a weak leader, a strong people'. A perfect example was President Trump's massive crowds at his rallies and wheeling and dealing, like the sole proprietor that he is, with amazing success and approval. But when the rug was pulled out from under Trump by the CPP

TCCR Staff Photo

Marxist Zuckerberg and the Democrats packing the ballot boxes with truckloads of phony ballots, there was no back-up plan. The 'Supreme Corpse' said that the President of the United States, President Donald Trump, had NO STANDING to be heard!

Checkmate!

Sounds like a fix to me.

The Vice President betrayed him, and his 'sheep' were scattered. Then the Commies took over the ENTIRE FEDERAL GOVERNMENT of the United States of America!

The new Faux President Biden is today, of this writing, selling out your health care to W.H.O. in Geneva, Switzerland. In other words, our health care will be controlled by Fauci on steroids thru the World Health Organization, with no US say so.

Really?

Yes, the Cat is out of the Bag!

Hospital Protocol in the hands of Fauci's team for COVID-19, was demanded for ALL hospitals receiving federal jabs for COVID. Obey or lose your license to practice medicine. This is common knowledge today. This is criminal malpractice on a world wide scale, and Faux President Biden is behind the rush to put every American at risk.

There are many resources, and it is now common knowledge that this hysteria was a con job and that available meds like Hydroxychloroquine and Ivermectin, to name a few, were available to the public but forbidden by W.H.O. and Fauci. This is malpractice on steroids! 12 of the 13 amendments to the International Health Regulations have been removed from Consideration by the 75th World Health Assembly surprising early in this year's session. Could be a 'Head Fake' from these self-appointed world class Puppeteers.

St. George Street Poll

On June 4, 2022, a Town Crier pollster conducted a St. George Street poll in the historic district of St. Augustine, Florida. St. Augustine is the oldest European-founded City in America. Consequently, the city draws a steady stream of tourists, creating a very unique demographic population. The poll is conducted as a random selection.

For the past 10 years, the Saint Augustine Tea Party's Town Crier Committee has been conducting polls on the City's historic St. George Street. The results of these polls over the years have given the Town Criers the ability to make some very accurate predictions. For example, in 2012, before Romney was nominated, the Town Criers predicted that he would win the nomination and lose the general election. In early 2016, the Town Criers predicted that Donald Trump would be elected President.

Based on their experience, the Town Criers have come to the conclusion that people who visit St. Augustine are a middle class focus group. The group has a strong bias towards Republican and Independent voters, with only a few Democrat voters present. However, it is the middle class that determines Presidential election results, given the struggle between urban and rural communities and the presence of the Electoral College.

TCCR Staff Photo

Election Polls and Fraudulent Election Results

TCCR Staff Photo

No poll can reflect the will of the people when fraud is introduced. During the 2020 election, 45th President of the United States, Donald J. Trump, was consistently the winner of St. George Street focus group. The Town Crier's predicted a substantial victory for Trump throughout 2020. Of course, our prediction did not take into account the coup d'tat that was executed on January 6, 2021 and the seizure of the Washington's Governmental buildings on January 20th. The collusion of the Republican and Democratic leadership in Washington overturned the will of the American people. Our Town Criers stand with our prediction that Donald Trump was re-elected in November 2020.

June 4th 2022, St. George Street Poll

Question: "Who would you vote for?"

Trump	51%
Biden	11%
DeSantis	38%

According to pollster, David Heimbold, ***"Anybody but Biden was almost a chant. It was all about Trump and DeSantis. There was friendly bickering about who to pick, since they could only pick one to vote for. Trump got the edge because of experience and, the fact that, he's already proven himself. But many love Ron."***

There are reports that DeSantis pulls ahead of Trump, in other polls in Wisconsin and Arizona. However, these are polls where more than one candidate can be selected. When push comes to shove, and only one candidate can be chosen, Trump, clearly has a substantial lead. There does seem to be some softness in Trump support, however, because of his apparent alignment with Republican establishment leadership and unfortunate comments he made about COVID-19 and the vaccines. Town Criers believe that he does not fully understand the nature of the grassroots supporters he claims to represent. The movement Trump often referred to has nothing to do with the Republican Party. Future polls are planned, testing the public on questions and issues other than the candidate's popularity.

Flag Day

Town Criers Mark 11 Years in the Historic District

Today is Flag Day and the St. Augustine Tea Party meditates on the day. The date is also the birth date of the Town Criers, a Committee of the St. Augustine Tea Party that has, for the past eleven years, been on TCCR Staff Photos June2011

the streets of St. Augustine, sounding the alarm. It was on Flag Day in 2011 that the Town Criers first assembled as a group and made their first appearance in the historic district of St. Augustine, Florida. Since then they have made several hundred such appearances. The original Town Criers are pictured on the left. Women dominated the early Town Crier volunteers. The streets were safer in 2011. The Town Criers confronted an Occupier group in November 2011, but they were mild compared to

the Communists of today. One of the ladies has passed on, and the other two ladies have moved to distant cities. The picture on the right above is from June 14, 2018 activities.

A Look at a Republican Club

On June 13, 2022, the Republican Club of Greater St. Augustine held its monthly meeting at Cucina Giovanni Restaurant on SR 16, St. John’s County, Florida. The featured speaker was Shawn Morrison, Chairman of the St. Augustine Tea Party (SATP). This is the second time a Tea Party Chairman has addressed the Republican Club. The earlier event occurred on

TCCR Staff Photo 2022

August 14, 2015, when former SATP Chairman Lance Thate, was the featured speaker. We mention these facts because this publication has not covered the Republican Club’s events except when Tea Party speakers are on the agenda. We believe that comparing the differences of the two encounters with the Republican Club might be useful in explaining some of the dynamics between the voters and the Republican Party Establishment, in general.

TCCR Staff Photo 2015 Since 2015, the leadership of the Republican Club has been divided between two REC members. Both of which have been the President and the Vice-President of the Club over the years. Currently, Peter Royal is the President and Marty Miller is the Vice-President. Both of these individuals were members and frequent attendees at SATP meetings years ago. Both had participated in Town Crier activities. Both of these individuals withdrew from the SATP when they acquired leadership positions in the Republican Club. Then, they both allied with the SATP’s establishment enemies in the REC. For the purpose of this article we will not get into the typical Republican infighting, which was present in the procurement of Shawn Morrison for the June 13th speaker engagement. Rather, we will focus on the make-up of the membership and their reaction to the SATP message.

When Mr. Thate addressed the Republican Club in 2015, it was a time when proper attire for men was a blue blazer, khaki slacks and penny loafers. Women tended to dress accordingly. The Tea Parties had been purged by Karl Rove and supportive media. The Globalist Republican Party leadership was in complete charge, ready to nominate Jeb Bush for President. The meeting was held at the Shriner’s Club facility in St Augustine, Florida. The Shriner’s building has a large room, capable of accommodating hundreds of

attendees. In those days, Club members would bring food in “Pot Luck” fashion and attendees participated in a buffet. Thate reports that the room was filled. Marty Miller, President of the Club at the time, showed great concern that the former SATP Chairman would attack the GOP, as he often had in SATP meetings. It should be noted that Thate had been a SJC REC member for 4 years and has a long association with GOP politics. Thate recalls, ***“I choose not to attack my hosts. Most of the people were not Party members (REC). They were Registered Republicans, older people looking for some good food and social contact with a political flavor. I chose to be kind. Instead I concentrated on the Tea Party’s accomplishments. I only had a handful of friends in the room; however, I was very well received with a standing ovation. The Tea Party movement has always been well received by the people. It’s those in the political Party structures that fear us.”*** Since that August night in 2015, the Republican Club has dwindled in numbers. Gone are the Pot Luck buffets. Republicans like to play the inside games and blame each other for their failures, real or otherwise. Back stabbing their fellow Party members is easier than facing the reality that their Party doesn't stand for anything related to its namesake or anything else. America is a republic! A republic is based on the concept of equal justice under the law. The American middle class is under attack by the Democrat Party and Republicans have bought into the lie that America is a democracy. They have become a “ME TOO” party that really stands for nothing and as a result does nothing. Both Parties serve the same masters, Central Banks and International Corporations. Middle-class Republicans sense this. The Town Criers have been witness to the disillusionment of middle-class Republicans on the streets of St. Augustine, Florida since 2012. This disenchantment is why the Republican Club has gone from hundreds to its current number, of around 50 members, according to the Club’s membership Chairman. It is only logical that a social club run the Republican Party members would take a hit. Who celebrates with people you no longer trust?

Tea Party Chairman Mesmerizes Republican Club

The moment Club President, Peter Royal, handed the microphone to the SATP Chairman, The SATP was in control of the meeting. It was like watching an old faded black and white film representing the Republicans, with Grassroots Patriots blazing on the screen in bright living color. So it is, when the living meet the dead. First, the Chairman read the complete text of Section 847.0133, Florida Statue, as it relates to minors and obscenity. Morrison went on to explain that 7 books have been identified as obscene in the SJC School libraries. The total number of books may be as high as 50. He then informed the Club members that at a May 24 School Board meeting, the members were forced to hear passages from the books that contained obscenity. The School Board's reaction was to refuse to remove the books from the school libraries. Instead they removed the Patriots who were informing them of this outrageous reality. Their removal was accomplished by using the St. Johns County Sheriff's Deputies, under the direction of Commander Scott Beaver. The Sheriff’s Deputies have been doing the bidding of elected officials since the very inception of the Tea Party in St John’s County. In the hallway outside the School Board meeting, Commander Beaver was confronted with the provisions of 847. 0133. In front of numerous witnesses, Beaver promised to look into

the situation and get back to the Patriots. Beaver has failed to respond to those involved, to this date. The SATP Chairman explained that a crime is committed when one knowingly transmits obscenity to a minor. The goal of the Patriots present, was to make sure that the School Board was informed. The Sheriff's Department, now complicit, is also on notice. To knowingly provide minors with obscene material is a third degree felony, punishable by five years in jail and a \$5000 fine for each offense. It is a new world for School Boards. Speaking to the Republican Club members Morrison said, ***"Now you have been informed and failure to take action would make you complicit or at least supportive of their behavior. You need to call the School Board members and you need to call the Sheriff's Office, demanding enforcement of the law."***

All this was making Club President, Peter Royal, very uncomfortable, as reflected by his body language. Clearly, the SATP was in charge of the conversation and the Club President had no effective way to end it. To make things worse for Mr. Royal, Morrison began insisting that, as a party member, Mr. Royal should introduce a resolution to the REC which would remove REC support for any School Board member who votes for the obscene books. SATP Chairman did this, no less than three times, with Peter Royal refusing to address the challenge. Finally, the Club President said, ***"Put that in the form of a motion"***. Morrison fired back a most coherent motion. Royal, sensing the mood of the crowd, made the second on the motion. A voice vote, without discussion, passed the motion in less than a minute. This is how important the issue is to "WE THE PEOPLE".

During the condemnation of the entire School Board, Tom Rivers, a former School Board member, showed no interest in joining in the conversation. He appeared to be more interested in his cell phone messages. Mr. Rivers has a long history in Progressive politics in St John's County. In the photo above, he is the person in the white shirt and tie, about four tables down, in the picture. On September 12, 2013, the REC passed a Resolution condemning Common Core. Rivers was the only REC member to speak in support of Common Core, sighting the School Board's support for the Communist measure. Rivers also served on the Northeast Florida Regional Planning Council. Regional Planning Commissions are an integrate part of the UN's Agenda 21, an agenda designed to consolidate power to accommodate a Communist system. He was also selected as a State Committeeman for SJC. The Republican Party of Florida (RPOF) is very influential as to who becomes a State Committeeman or a State Committeewoman. The RPOF is a bastion of New World Order politicians. When Mitt Romney came to the Flagler College campus in 2012, Rivers was there to show his support for the "Left Wing" Republican candidate for President. The SATP was out there, in force, to reject his candidacy.

The Atmosphere was Tea Party

There were about fifty in attendance on June 13th. Referring again to the photo above, the people forward of Mr. Rivers were registered Republicans who were also members of reforming groups such as the SATP,

the Republican Liberty Caucus, 3%ers, Moms for Liberty, North Florida Patriots and others. Establishment Republicans, joining with the Club Leadership, were an extreme minority, pictured behind Mr. Rivers.

While membership in the Republican Club has declined over the last 7 years, Peter Royal reports that the REC has now gone from 50 attending to over 200, in recent times. The American people are aware that something is drastically wrong. The two party system, as it exists today, is dysfunctionally corrupted. Wishing to contribute, reform minded people are joining REC's across the country. The membership expansion has had destructive consequences for the SJC REC. Establishment Republicans are threatened by the reforms being demanded by the new members and attendees. The Old Guard Republicans have resorted to canceling meetings, changing rules, distorting rules, making up new rules, ejecting people, preventing new members from speaking and failing to confirm new members as Precinct Committee Persons in the REC. The limitations being placed on the newcomers is forcing their "Just Cause" to reach outside the Roberts Rules decorum. It makes for discord that the Old Guard can't handle. At a recent meeting, a reporter was removed. In calling law enforcement, a First Degree Misdemeanor, filing a false police report was filed. The St. Johns County Sheriff's Department chose not to prosecute. The REC recorded the event in its business minutes, at the insistence of the new members. Fancy new offices and business as usual will not save the day. The question is, what will be left after the reform takes place? Patriots hope for a Constitutional Conservative Party; the exact opposite of what the Republican Party is today.

The SATP has been on the right side of Conservative politics in St. Johns County since its inception in 2010.

Truth's Last Stand

by CS Bennett

We are living in a day and time, here in the United States of America, where many aspects, and many facets, of our society are becoming endangered species. This

Bennett with Dinesh D'souza & Wife Bennett Photo

includes our freedoms and liberties, which are shrinking daily, along with this concept called truth. Facts do not mean anything anymore, and truth is something to be avoided at all costs, for some, especially those leading a large portion of this country astray. Now, what group, or organization, could I be talking about? I am talking about one of two major political parties in the United States that has become adept at lying and steering clear of truth. I am not going to tell you what party I am addressing. Just go to both the DNC (Democrat National Committee) or RNC (Republican National Committee) websites and look at the 'Our History' section of their sites and see which one proudly proclaims they have been standing up for the rights of Americans, including women, for over two hundred years (and oh, that line about their passage of women's rights under the leadership of democrat President Wilson, that is a lie, too. He loathed the thought of women having such rights, but he was backed into a corner and out of political expediency, signed the bill allowing women certain rights). Then type into your search engine, slavery and the role (put in Democrat Party or Republican Party) and then type in the role this organization played in slavery, and it will become all too apparent to you which a party has lied about its past history on its website and continues to lie about things to this day. The truth is this, a political party that will lie to you about its origins will also lie to you about everything else it wants you to believe in.

This January Resurrection debacle is one of this party's biggest attempts at deceiving the American public. For you who are educated and are critical thinkers, and I hope seekers of truth, I challenge you to watch the episode below and see how much the truth, and its important role in this country, is taking a beating, and along with it, our rights and freedoms and our trust in the institutions we once cherished, at least, to some extent in our past.... Strangely, the episode you are about to review is hard to find on the Internet (YouTube, for instance), obviously an effort to keep it from the masses, but I have found a site that has it, at least for now. So, click on the link below, watch it, and share with others, before this, too, is taken down... Then you decide, who is about truth, and who is about concealing it... My point is that we cannot just sit around and allow truth to be canceled, like so many other aspects of our society... We must act!

Porn Cover Up by REC

Republican Executive Committee Board Members Cover for School Board

On June 21, 2022 the Republican Party Board members met for a business meeting in St Johns County, Florida. Patti Walker, District 1 Chair, has been involved in the process exposing School Board members to the fact that there are at least seven books in the school libraries (and possibly as many as fifty) that have pornographic content according to most standards including Section 847.0133 of the Florida Statutes. At the June 21st meeting Patti Walker proposed a resolution which prescribes a course of REC action. The resolution is provided, in full, at the end of this article.

The Board voted as follows:

<u>YES</u>	<u>NO</u>	<u>ABSENT</u>	<u>ABSTAIN</u>
Patti Walker Blake Paterson Diane Dew	Tamera Renuart Jim Bragg Lynda Kirker Jay Smith	Pete Royal Tom Rivers Karen Harvey	Roy Alaimo

Dear REC,
 This morning District 1 Chair Patti Walker submitted her resignation and I have accepted. We thank Patti for her hard-work and dedication to the party. We wish her the best of luck on future endeavors.
 Sincerely,
 Roy Alaimo
 Chair, St. Johns County GOP

Had the entire 11 member board voted, we speculate that the vote to adopt the resolution would have been: 4 yes; 7 no, or at best 5 yes; 6 no. Not wanting to be associated with the weakness displayed by the Board, Patti Walker tendered her resignation. One thing made clear from the vote is that the REC has no leader. Roy Alaimo’s abstention is reflective of the Republican Party’s inability to be an opposition party. The Board's action clearly demonstrates that the image of the party is more important than the protection of St. Johns County children from homosexual pornography.

The proper image for the Republicans would be to oppose the Communist inspired Gay Pride Month by attacking pornography in the schools. Highly

respected former REC Chairman, Jerry Cameron, has suggested that the proper place for the resolution to be presented is in the full REC membership meeting. The REC Board approval is not necessary. The GOP is covering up the collusion between the Communist Democrat Party, the SJC Sheriff's Department, and the School Board who continue the culture war against America.

RESOLUTION TO GET INAPPROPRIATE BOOKS OUT OF SJC SCHOOLS

WHEREAS the St. Johns County REC is committed to effectively standing up for Republican values, and *our Membership expects and deserves leadership from the Board;*

WHEREAS the St. Johns County REC stands for law and order;

WHEREAS the St. Johns County School Board failed the citizens of St. Johns County in their meeting held on May 24, 2022;

WHEREAS there is a large amount of offensive printed material in the St. Johns County public schools that by all logical conclusions is patently offensive to community standards, pornographic and thus illegal (printed materials in your possession). . . .

NOW, THEREFORE BE IT RESOLVED as follows:

1. The St. Johns County REC will send a letter to the Board of Education and to the School Superintendent indicating that we do not support the School Board's decision to leave pornographic material in public school libraries and will fight it at a higher level.
2. The St. Johns County REC will send a letter to the Board of Education and to the School Superintendent insisting that they immediately remove the pornographic materials from our county school libraries.
3. The St. Johns County REC will send a letter to Governor Ron DeSantis including printed copies of the offensive materials and asking him to address the issue publicly.
4. The St. Johns County REC will send a letter to the Ponte Vedra Recorder, The St. Augustine Record, and the CreekLine newspapers (and others as applicable) clearly expressing our disappointment in the St. Johns County School Board for their decision to leave these offensive materials in the schools.
5. The St. Johns County REC will send a formal complaint to the St. Johns County Sheriff's Office and the State's Attorney indicating that some of the printed material in question should be deemed as pornography. As such, the request should be made that the both offices uphold their oaths, file and prosecute criminal charges against the offending school media specialists and principals, ensure the pornography is removed from the schools, and ensure those complicit in providing and shelving this material are held responsible.
