Tea Party's Thirteenth Christmas Parade

TCCR Staff Photos

On December 3, 2022, the Saint Augustine Tea Party entered their Dartmouth in the annual Saint Augustine, Florida, Christmas Parade. The Parade is held in the City's historic district. The Dartmouth is a 38 foot replica of one of three ships from which Tea was thrown in Boston Harbor on December 16, 1773. The protest was carried out by Samuel Adam's Sons of Liberty. The episode escalated into the American Revolution, becoming an iconic moment in American history.

The modern day Tea Party Is a movement whose founding principles are based on fiscal responsibility and on Constitutional governance. Today the Tea Party members executed a plan to put Christ back in Christmas. They did so by displaying their faith. Nothing infuriates the Communists among us more than displaying the "Christian faith." Communists validate only the perverted sexual nonsense that is present in America today. The Tea Party members presented a demonstration of faith that the "City Fathers," who support the BLM Communists, could not stop.

TCCR Staff Photo

TCCR Staff Photo

The current SATP Chairman, Shawn Morrison, made the following remarks:

“The parade went fantastically well! The TEA Party was very well received. Cheers emitted from the crowd on all sides and at steady intervals. The float was a fan favorite and loved among the children. It was easily recognized as a “Patriot Float” by the abundance of flags. The III% flag must have attracted the attention of at least a few parade viewers as at least 3 people held up the [redacted] symbol. This is something I have not noticed from the crowd at all in the past.”

According to those on board the Tea Party’s Dartmouth, “We may have been the only float in the entire parade projecting ‘Christian faith’ as the Christmas Parade was largely secular.” “Put Christ back in Christmas” was well received and welcomed by the parade public. ***“Glory to God in the Highest, and on Earth peace to men of good will,”*** still resonates among those of goodwill. The Tea Party Patriots experienced the fact that people of goodwill do, in fact, still exist. The mainstream churches have not stood the test. For Christians of goodwill to stand by and do nothing in the face of tyranny begets evil. Today the Christmas message came from the Dartmouth, a symbol of revolution and eventual war. There is a dichotomy; the Christmas message of peace coming from a symbol of “Revolution and War.” Yet, that is the dilemma that Christians face today.

Throughout its long history, America has always faced external enemies successfully. Today we have something new. America is facing an internal, domestic enemy. Americans have recently been the victims of a fake pandemic, a fraudulent election, an unending cultural war of sexual insanity and weaponized federal agencies imposing the will of an illegitimate, criminal government. This must end.

The first paragraph of our Declaration of Independence makes it clear that **it is our duty to separate from the political bands that produce tyranny**. Biblical scripture requires people of goodwill to resist and do battle with evil. So the Patriots aboard the Dartmouth ask, “What are you waiting for”? It is time to embrace the concept of the **“land of the free and the home of the brave”** and impose the will of an armed and free people. So it was on the Dartmouth’s 13th Christmas Parade Voyage.

December 7, 2022

December 7th Then... Now

FB Images

In the United States “Pearl Harbor Day” is observed annually on December 7th to honor and remember the 2,403 Americans who were killed in the Japanese attack on Pearl Harbor, Hawaii.

The remembrance occurs not as a national holiday but voluntarily, out of respect and will of the American people. The “Then and Now” discussion we are about to have is not about the natural decline in intensity occurring over time. When the December 7th remembrance first was observed, Roosevelt’s ringing words, “A date which will live in Infamy,” was very intense as almost all veterans alive were World War II veterans. Of course today very few remain. As time passed, Armistice Day became Veteran’s Day and World War I veterans passed. So it is with Pearl Harbor Day. This natural phenomena occurs. Maintaining the remembrance may best be done with monuments at this point in time. This naturally occurring phenomena is not what we’re going to talk about here.

The **THEN** we’re talking about was the universal support for the war that followed the Pearl Harbor attack. Both civilian and uniformed Americans fully participated in the struggle. They have been called “**America’s Greatest Generation.**” It is an honor they deserved. They believed the cause was just and that the government had their best interests at heart. They trusted their government and viewed Roosevelt as a great wartime leader. This was true in spite of numerous known Communists within the Roosevelt administration. There have been those who claimed that these well positioned Communists are responsible for the attack on Pearl Harbor. And claims have always persisted that Roosevelt had prior knowledge of the Japanese attack. Throughout most of history, the claims were ignored. **THEN** the American people trusted their government. We were the “land of the free and the home of the

brave.” Now 80 some years have passed and our **NOW** has no resemblance to 1941. The “Greatest Generation” fought to preserve individual liberty which was being assaulted by totalitarian forces from around the world. The enemies of liberty were external enemies. Today, America’s enemies are internal enemies which reside in the vastness of the governmental bureaucracy and self-serving politicians. “We the People” no longer have representation in the corrupt, vile system that exists today. The concept of equal justice under the law has been totally undermined by Communist deep state sympathizers. Politicians of both parties have been stealing elections for a very long time. A bio-weapons attack by the Chinese Communist Party introduced a fake pandemic, setting the stage for election fraud on a scale never seen before. In 2020 corrupt voting machines and ballot stuffing, which mail-in voting encourages, provided the **Democrats** the ability to do what they have always done in major urban areas—**cheat**. The evidence is there in plain sight. No one in the global establishment government was willing to address the issue. The only **collusion** taking place was that **between the Republican and the Democrat parties**.

As a consequence the duly elected President of the United States, Donald J. Trump, was not seated and former Vice President Biden took possession of the White House. Americans understand that fencing and concertina wire around their Capitol Building are there to protect the deplorable politicians that reside within.

FB Image

Recent elections in 2022, both in the primary and general election, reveal fraud in Arizona, Pennsylvania, Georgia and Alaska setting the stage for even more corruption. Tyrants use graft and corruption to separate God given liberty from people.

It is, along with terror, the way tyranny is imposed. **NOW**, large numbers no longer trust the government in Washington. “The Free Press” reports:

In a new poll, Americans listed the federal government as the top problem facing the country for the seventh year in a row... according to a Gallup poll released 12/07/22.

The difference between 1941 and 2022 is that in 1941 the American people had confidence in their government and in themselves. In 2022 large numbers of the American public have no confidence in their government and unfortunately even in themselves. It is time for Americans to remember who they are. As they were in 1941, **they are still an armed free people who can claim to be from the land of the free and the home of the brave**. In the meantime Patriots can, as they always have, honor those 2,403 killed on December 7, 1941 as a result of the Japanese attack at Pearl Harbor, Hawaii.

Elections: When will we have a real one Again?

Election fraud has been prevalent in America, perhaps early on, but certainly on a national level since 1960. That's when Cook County in Illinois came up with enough votes to elect Kennedy over Nixon. By mutual agreement and for the past 62 years both the Democrats and the Republicans have played the same game. To a thoughtful observer it should be clear that the **Republican Party** is the "**Me too Party.**" History shows that they have no interest or ability to govern. The GOP tags along with the Democrats and plays to the MSM for the benefit of the graft and corruption that politics breeds. If you're looking for **collusion** this is where you find it**among the Democrat and Republican globalists.**

Under the pretext of the CCP's bio-attack of COVID in 2020, the election system in America has been corrupted to a point of no recovery under current political climate. In 2020 the election was stolen on a massive scale using corrupt voting machines and ballot stuffing techniques. The same techniques that led to the fraud in 2020 prevailed in the election of 2022. Prolonged periods of vote counting offer opportunity to tweak and manipulate the final outcome. As the Communists in the former Soviet Union have often expressed, "It matters not who votes but who counts the votes."

Republicans Love to Concede

The election of 2020 was a fraud. Former Vice President Biden knows it. The 45th President of the United States, Donald J. Trump, knows it. And a growing number of the American people know it. The duly elected President has not conceded to this day. When playing by the rules of the RNC, a common Republican quality in close races is early concession. They've been doing it since the Nixon era. The Kennedy-Nixon election was squeaky close but Nixon conceded immediately. It's a tradition among Republicans. Only Patriots refuse to accept the fraudulent game and continue to fight on. The recent 2022 election was simply a replay of the 2020 election. Nothing has been done to correct the deficiencies. Elections that go on for months are ripe vehicles for theft. So you have early voting, mail in ballots and you keep counting and counting until you get the results you want. To prevent discovery you

remove transparency. Poll watchers in both red and blue environments are forced to stand 15 to 20 feet away so that ballots and procedures cannot be actually observed. There is extensive failure among Supervisors of Elections. Supervisors of Elections are elected and the global establishment Republicans and Democrats nominate people who will perpetuate the fraud game. This is the system in America today. Fraud exists in every State of the Union; but doesn't always create a notable event. Fraudulent elections that had serious consequences in 2022 have been noted in Pennsylvania, Georgia, Arizona and Alaska, among others.

In Arizona we have a Patriot who is fighting on. Kari Lake has refused to concede and has initiated legal proceedings in an attempt to expose the fraud. Donald J. Trump did the same in 2020. Unfortunately most Republicans just concede. The Alaskan theft is a little different. It actually occurred before the 2022 election.

TCCR Staff Screenshot

Alaska's 2022 Election Bought by Dark Money

Another, longer term technique, preferred by left leaning Republicans and Democrats is changing the voting process to a complex method known as “**Ranked Choice Voting**” (RCV). The State of Maine and some Democrat controlled municipalities have RCV. In 2020, RCV was **adopted in the State of Alaska**. Support for RCV came from dark money raised by out of state billionaires. Six Million (\$6,000,000) plus was raised in the lower 48 States from left wing Communists; only \$20,000 was raised in Alaska. Opposing RCV groups raised less than \$500,000 with the majority coming from Alaskans. Lisa Murkowski won election in 2016 with a write in campaign, as she lost the Republican primary. Murkowski operatives accordingly devised a plan to avoid the primary by radically transforming the state’s election system. The answer was **RCV**, a ballot system to rig elections in **favor of the incumbent**. Six million is apparently a small price to pay to finance Lisa Murkowski’s reelection, as she frequently votes with the Communist senators in Washington. Six Million was a bargain because the convoluted system took down Sarah Palin as well. Looks like the red State of Alaska just switched to a permanent blue. RCV is becoming the go-to measure to corrupt American elections by left-wing activists of both parties.

Will we ever have a legitimate election again? Sadly, under current conditions, not any time soon. Many are now saying, “When no political solution is possible, history shows us that extreme measures are likely to occur.” Pray that it will be a restoration of the US Constitution.

Patriots play before the Coming Crisis

On December 17, 2022, Patriots assembled for a winter picnic at Faver-Dykes State Park in St. Johns County, Florida (SJC). The event was organized by North Florida Patriots (NFP); NFP is a grassroots group organized to resist the “Communist Cultural War,” restore America's historic values and reestablish Constitutional governance.

Invited guests included members of the Saint Augustine Tea Party and 3% militia members. Attendance was by invitation only. Many in the group attending constituted a “Who's Who” in political activism in SJC.

TCCR Staff Photo

However, today was not about protests and demonstrations; though many have met before when they

TCCR Staff Photo

engaged in such activities. Today was different. Today was about the great outdoors and fresh air, with beautiful surroundings as a setting for family fun and relaxation.

Food was plentiful with numerous casseroles; each one had to be sampled. Of special note were fresh oysters from today's catch, removed from the boat within the hour. While no picnic is complete without hot dogs, sausages and hamburgers, venison was also served—country food served in the country.

Picnics are always about children scurrying about radiating with excitement and so it was with the children ranging from toddler to teenager. A good time was had by all regardless of age. People seemed to be appreciative of this moment in time. Christmas music warmed the soul. The evil that prevails across the country was unable to dampen the spirits of joyful, happy people who enjoy America's true values. Tomorrow the battle continues in Jacksonville with protesting the drag queens' attempt to undermine family values. And on Monday the struggle continues with contests between Patriots and RINO neocons. The REC is conducting its annual election in SJC.

An evil wind blows across the country and an unprecedented crisis lies ahead. But today, joy and happiness prevailed at Faver-Dykes State Park for patriots at play.

Proud Boys Protest Drag Queen Brunch

On December 18, 2022, the Proud Boys organized a demonstration in Jacksonville, Florida. They were protesting drag queens being presented to minor children. The event was outside Tepeyolot Cervceria or Tepey's just prior to a scheduled Drag Queen Brunch.

While the Proud Boys organized the event, 3% militia members as well as members of the Saint Augustine Tea Party (SATP) joined in. According to Doug Russo, a Tea Party member, "The SATP has been involved with numerous demonstrations which included the Proud Boys and has never witnessed any violent acts. Proud Boys do on occasion get vocally very loud – not much different than the Communists when they try to shout people down and call it free speech. Proud Boys use leftist tactics against the Communists to promote American values. American values do not include teaching children about homosexuality, drag queens and fringe bizarre sexual fantasies."

TCCR Staff Screenshots

TCCR Staff Screenshot

ABC's First Coast News has reported that the Proud Boys are listed as an extremist and violent hate group by the Southern Poverty Law Center (SPLC). According to SATP members the SPLC could hardly qualify as an authority. During demonstrations in Saint Augustine SPLC observers would accompany Communist groups such as BLM, Occupiers and the New Black Panther Party. The SPLC was there to protect the Communist groups from the American public from a legal perspective.

The Proud Boys protested outside the brewery with signs and chants. The protest took place without any physical violence. The Jacksonville Sheriff's Office was present without incident. Doug Russo was interviewed by First Coast News. The SATP member and Pastor made the following comment: "They are allowing children into this place where there are going to be drag queens, homosexuality, a bar— everything that's against raising a nice family."

TCCR Staff Screenshots

"It's just a show for people to come out and have a good time," Luis Melgarejo, the restaurant owner, told First Coast News. Melgarejo will not be terminating the show and says his brewery will continue to allow minors to be present. It remains to be seen whether the Proud Boys and their friends will be back for the next Drag Queen Brunch.

December 22, 2022

SJC-REC Election A Lost Opportunity

On December 19, 2022, the St. Johns County Republican Executive Committee (REC) met at the World Golf Village

TCCR Staff Photo

Conference Center in St. Johns County (SJC), Florida for its annual election of board members. One hundred thirty-seven (137) REC members in attendance elected the following officers: Chairman, Blake Paterson; Vice Chairman, Jaime Parham; Treasurer, Bill McMahon and Secretary, Linda Thomson.

The Chairmanship contest was between an establishment insider, Blake Paterson, and a grassroots newcomer to politics, Johnny Coe Counts. Counts ran for County Commissioner in the recent elections relying on Tea Party and grassroots support. According to Tea Party REC members, his lack of insider support in the REC explains his failure to prevail. Republicans like insiders. However, this patriot made a very good showing and obtained 65 votes. Paterson prevailed with 69 votes. Jaime Parham won the Vice Chair; Parham is a Tea Party member.

Near the end of an exceptionally long meeting which did not adjourn until around 10:45 PM, a vote of “No Confidence” for the outgoing Chairman, Roy Alaimo, was held (44 yes, 14 no, and 14 abstaining). By the time the “No Confidence Vote” was called, there were empty chairs because many members left after the election of officers. The reduction of attendees suggested a lack of a quorum. This was never an issue with the new Chairman, Blake Patterson. As it turns out, a quorum was present.

According to Jaime Parham, the SJC REC is operating according to the Republican Party of Florida’s (RPOF) Constitution because the SJC REC’s own Constitution was not filed by previous Chairman Alaimo. The RPOF 's quorum requirement is 40%.

We question why the REC members would vote for a “Vote of No Confidence” on a former Chairman who was no longer in office. The procedure is the beginning of a process for the removal of a person from office. The America First Republicans explained that, “It was more of a ‘Sanction Vote’ with the

intent of preventing Alaimo from rising in the party or holding public office so deceitful was his behavior.”

A call for a “No Confidence Vote” from America First Republicans precedes the REC's meeting on December 1, 2022.

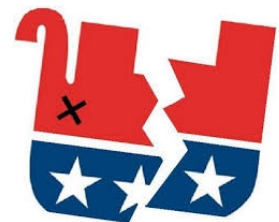

In an attempt to assert their majority, the America First Republicans conducted a “Special Membership Meeting” on July 28, 2022. Roy Alaimo, using totally false numbers, declared the meeting invalid for lack of a quorum. The minutes from the meeting contradict Alaimo’s position and confirm the 40% threshold. Among many of the motions that were passed at the special meeting that night, by unanimous hand counts, was a “Vote of No Confidence” that passed (70 Yes. 1 No).

Dissatisfaction with outgoing Chairman Roy Alaimo stems from a struggle between majority “America First Republicans” and minority “Globalist Republicans.” For a year Alaimo ran roughshod over new REC members, promoting and submitting to the will of the RPOF and their globalist agenda. In SJC newly inducted members, though fragmented, outnumber the old guard. Similar struggles are occurring at county levels across the State of Florida. There are numerous attacks on the RPOF’s top down control.

In faraway Tallahassee, Governor DeSantis was busy rewarding the SJC outgoing REC Chairman, Roy Alaimo, for services rendered to the RPOF. DeSantis appointed Alaimo, a SJC Commissioner filling the seat of deceased Commissioner, Paul Waldron.

While the “Sanction Vote” motions were going on, it is now very clear that an insider deal had already been crafted between Governor DeSantis, the establishment SJC REC Board and the RPOF. DeSantis’ appointments in SJC have been 100% supportive of the Hutson family real estate development interests and the local elitist Republicans in SJC. The interests of the people have been subordinated by big money donations to globalist Republicans. According to Tea Party members, while the MSM promotes DeSantis’ popularity on a national level, those who have dealt with him on local issues are not convinced. They have been disappointed since 2012 when he was the Congressman for SJC.

Back in 2010 it was the REC operatives taking control of Tea Parties in SJC. Today it is the Tea Party taking over REC. This is exciting for patriots. However the real prize was the Chairman’s seat, because the Chairman sets the agenda, appoints the committee chairs and speaks for the REC when not session. According to Tea Party REC members, there were patriots who could have been elected Chairman. For personal reasons they chose not to run. For the Tea Party patriots, this election has been a lost opportunity.
