Obama's Surrogate

Former Vice President Biden's New Year Hangs in the Balance

TCCR Social Media Screenshots

Cloward and Piven were Communist professors at Columbia University, who believed in transforming America. In 1966 they wrote and published an article outlining how to transform America by overwhelming the system and overloading the government bureaucracy with impossible demands to bring on an economic collapse and the fall of capitalism.

TCCR Social Media Screenshot

The picture above shows Richard Cloward and Francis Piven at a Clinton administration bill signing.

During both terms of the Obama administration Cloward-Piven was faithfully executed. Now in Obama's third term, with his surrogate former Vice President Biden officiating, the process continues.

Home of the Brave

For Two Years J 6 Patriots have been Confined in the DC Jail

US Gov Photo DC Jail

Amid reports from various sources, J 6 detainees report abuses while they are forced to await their trials—no speedy trials; no ability to post bond; and in some cases no legal representation. The J 6 prisoners claim they are not provided with attorneys, are not cared for medically and are provided poor food, forcing them to rely on food brought in by friends and relatives or food purchased at the Jail Commissary in the DC Jail. In addition the facilities are filthy and often reek of offensive odors. Recreational time for J 6 prisoners is greatly restricted as compared to other prisoners in the Correctional Detention Facility. Detainees report physical and sexual abuse by guards and a program of Communist indoctrination, such as white supremacy doctrine being forced on them.

Unannounced US Marshal's (USMS) inspections found 'deficiencies' in the DC jail holding J 6 defendants. These inspections, along with a Congressional inspection by Rep. Marjorie Taylor Green (R Ga), Reps. Gohmert (R-TX), Gosar (R-AZ), and Gaetz (R-FL), took place in November of 2021. Rep Marjorie Taylor Greene stated that the J 6 detainees have been subjected to a "Two-tiered Justice System." "What's happening to these people being held in custody is wrong. It's unconstitutional, a violation of their rights, and an abuse that I call on every single member of Congress to start paying attention to." The result of the above mentioned inspections caused prison officials to transfer prisoners, including some of the J 6 people, to other facilities within the federal prison system. There are many conflicting reports of how many prisoners there are and where they are. We believe the one we are presenting is accurate. It was the most recent accounting and was received from Tea Party researchers. Currently there are 61 J 6 Patriots in Federal custody as of December 30, 2022:

- 22 in the Washington DC Jail;
- 21 in Federal Prisons in Virginia;
- 16 in Federal Prison in Pennsylvania;
- 1 in Federal Prison in Florida and one in an unknown location.

Political Prisoners in America

The total number of political prisoners, including those under house arrest in America, as of December 26, 2022 is reported to be about 960. Also being reported is that 465 people have pleaded guilty. The question is, did they plead guilty to insurrection or a minor trespass charge?

The fact that there are even political prisoners existing in America reveals the degree and depth of our tyrannical government in Washington DC.

TCCR Staff Screenshot

Americans, across the country, are beginning to understand that the Department of Justice and law enforcement at all levels are joining in the persecution of America First Patriots. They use their high office in a pretense of asserting justice when, in fact, they are imposing terror and tyranny.

Patriots know what is necessary to restore liberty to our Constitutional Republic. It seems they are caught in the grips of the illegitimate forces that occupy the Capital of the Central

Government of the United States. Many leaders of the America First Patriots are responding to the intimidation that comes from the “Deep State” forces that prevail in DC. They see any response in Washington as a potential entrapment. “Their response is to freeze as a deer does in the headlights of an oncoming car,” a Tea Party member said.

Patriots went to Washington January 6, 2021 to exercise their First Amendment right of free speech and the right to assemble. Americans have traditionally addressed grievances that they have with their government. There was an insurrection on January 6, 2021 but it was not the patriots who initiated it. It was initiated by the Communists who reside in high places within Washington. Insurrectionists come with weapons. The Trump supporters came in peace without weapons. The true insurrectionists were the Capital Police, FBI, and other law enforcement who did have weapons and facilitated the entry of protesters into the Capital Building. The false flag operation was coordinated by law enforcement and elements of the Black Blog Anarchists, Antifa and globalist politicians feeding at the trough. The only person killed that day was an Air Force veteran, Ashli Babbitt, who was not armed. Facts have come to reveal that Capital Police officer, Lt. Michael Byrd, shot the unarmed protester, who posed no threat, without even being as much as identified.

FB Image

FB Image

the Federal Government. According to the requirements of the US Constitution, they are violating the law. Supporters of this lawsuit claim that this would bar those found guilty from ever participating in government again at any level.

The Supreme Court of the United States has scheduled a hearing for January 6, 2023, on a case that could potentially remove the shadow government of Joe Biden and Kamala Harris from office along with numerous legislators who violated their "Oath of Office" during the insurrection of January 6, 2021. It's a long shot according to former Governor Mike Huckabee who recently made reference to it. Patriots have been aware of the Brunson Brothers' lawsuit against the US Government for some time. This case could bring about a dramatic change of power in government, since so many politicians and government employees have violated their "Oath of Office" throughout

Land of the Free Home of the Brave

In the land of the free and the home of the brave, American citizens are getting used to the idea of receiving handouts from the federal government without requiring any constructive and productive effort on their part. In other words they're getting lazy and the work ethic is deteriorating. This lifestyle is not sustainable and the trend will end up in poverty, hopelessness and being a slave to an all powerful government. Adding greatly to the decline of the work ethic were the lock downs brought about by the COVID-19 bio attack by the Chinese Communist Party in 2020. Not only did the lock down damage our work ethic, it also provided cover for changing the electoral process to a massive mail in ballot system which favors the Democrat Party's urban voter fraud. In the end the COVID-19 pandemic was as fraudulent as the elections. The fraudulent election allowed the coup d'etat on January 6, 2021, when members of both parties refused to acknowledge the people's choice for President.

On January 6, 2023, there will be demonstrations in support of the J 6 defendants across the Country. Patriots will be holding rallies on a National level. Those who went to Washington to protest the fraudulent election were brave. Those who have been indicted and are fighting the corruption are demonstrating a higher level of bravery. But those who are incarcerated, who sing the National Anthem in the face of their captors, are the bravest of all. In America, the home of the brave is in a federal jail. God bless them. They fight for LIBERTY.

January 8, 2023

Candlelight Vigil in Nation's Oldest City

On January 6, 2023 the Saint Augustine Tea Party and North Florida Patriots conducted a Candlelight Vigil in the historic district of St. Augustine, Florida, the nation's oldest city. The candles intertwined with the "Nights of Lights" celebration in the City's Plaza de la Constitucion. The Nights of Lights is an extended Christmas display that lights up the entire historic district with millions of small white lights. It attracts people from all over the world.

There were between 75 and 100 brave souls who attended the vigil. Those speaking at the event were individuals who were actually in Washington, DC on January 6, 2021. They gave their own personal accounts as to what happened on that fateful day. A notable personality was Ben Pollack. Ben Pollack was carrying a large, oversize American flag flown in a respectful but distressed status. [Upside Down Ed] Pollack, who lives in Lakeland, Florida, tells an emotional story about an early morning raid on his home by the FBI. Pollack refuses to submit to Federal tyranny, but has paid a high price. He reports that one son is a J 6 prisoner, being held unconstitutionally, in Naples, Florida. A daughter who is under house arrest and who was in attendance, said, "I wear the prisoner bracelet with pride." And a second son who is still free, though at an unknown location, has a warrant out for his arrest for his activities associated with the fraudulent election's certification. The warrant was issued in June of 2021.

In addition to the speakers, the names of J 6 political prisoners currently incarcerated (a number totaling 62) were read off with their locations noted. A complete list of honored names follows this article. In addition to those held in custody, 960 others have been indicted. Biden's FBI promises more arrests. They have indicated that 1,000 more are coming.

FB Image

The DC Swamp Politicians Terrified

After the event TCCR interviewed participants. The general consensus of those interviewed after the event was that the number of people present in DC was grossly understated. A number most used was 2 million people. Not all of the people who were in Washington addressed the group from the Plaza's Gazebo.

A woman, who wishes to be anonymous, disclosed that she was formerly from Texas and had been a Tea Party Chairman there for many years. She revealed that she was in Washington on January 6, 2021. She was surrounded with a massive peaceful group of Trump supporters and thought about going to the Capitol Building. She then noticed there was no police presence—millions of people with no first responders present for health and safety reasons. It seemed to her this was very unusual, so she stayed where she was. There was no one present who didn't have a story about how the Capitol Police and the FBI, or at least people that looked like federal agents, were the instigators around the Capitol Building. One Tea Party member was tear gassed and pepper sprayed and he was on the side of the building that was not breached. There were reports of tear gas bombs being thrown into peaceful demonstrators. The political creatures of both parties have never understood how the Tea Party movement, later the Trump rallies, could generate so much enthusiasm when they could not. And here we have essentially one man who brought 2 million people to Washington and it terrified them. They had to get rid of Trump and they had to intimidate patriots to the point where they would avoid coming back to the captured capital. And that's what the FBI has been doing with these J 6 victims and their friends.

The Terror and Intimidation Will Begin in Earnest

In the coming year, tyranny will only intensify as Government will have 87,000 armed IRS agents to intimidate conservatives and Trump supporters. Even if they are defunded by the Republican House, it is entirely possible that they will move forward anyway because we live in a lawless land.

This candlelight vigil was organized as part of a national demonstration. Preliminary Google searches for events other than the one in Saint Augustine has not produced new events for 2023. MSM is totally void of any mention of the demonstrations honoring the political prisoners of America.

How many Times are we expected to Believe

On January 7, 2023, on the 15th try, Kevin McCarthy, the person no one really wanted as Speaker, became the Speaker of the 118th Congress. Right out of the “GOP Play Book of Deception” and following in the foot steps of John Boehner and Paul Ryan, McCarthy’s first act was to bamboozle the people with the first order of business being a bill to defund the 87000 new IRS agents the Democrats want to hire.

Back stepping for a moment—in 2010 with the enthusiasm of the Tea Party movement, the Republican Party took control of the House of Representatives and one of the first bills put before the House, by Speaker John Boehner, was the repeal of Obamacare. Republicans would vote to repeal Obamacare on a regular basis but it was all a deceitful trick because in 8 years of Obama, they consistently funded Obamacare. It was easy for them to vote against Obamacare because the vote was inconsequential and popular with the people. When it actually became possible to repeal Obamacare they didn’t do it; the repeal of Obamacare was dropped from the conversation and was never mentioned again.

Fast forward and Speaker McCarthy is using the same old trick.

TCCR Staff Screenshots

Defunding 87,000 armed IRS agents who will be going after Constitutional Conservatives and Trump supporters is popular among the great majority of Americans. So it will be advantageous for the new Speaker to bring it up frequently knowing that nothing of consequence will occur. The simple fact is the funding has already occurred. It was in the massive spending bill that Republicans just signed onto. Maybe the true nature of McCarthy’s political orientation is revealed in his embrace of Communist, Hakeem Jeffries, the new Democrat Minority Leader.

This begs the question—how many times are we expected to believe the Republican deceit?

Letter to the Editor

By Gayle Cranford

In a recent issue of The Epoch Times newspaper (January 4-10,2023), editor-at-large Roger L. Simon wrote an article entitled "How to Be Happy in 2023 – Make Saving the Republic Your New Year's Resolution."

How prescient and important that advice is for all Americans given the climate of today's world!

In particular, Simon's advice should be heard and absorbed by important organizations such as our own St. Johns County REC (Republican Executive Committee). As members of the REC and citizens of the greatest country ever created, we conservatives can no longer turn our attention away from dividing influences in our society and our organization as we fight for the very life of our great Republic.

Indeed, every person alive living in the United States of America should be aware of the destructive designs of many of our so-called leaders...local, state, federal, and global. Communism is alive and well, patiently and insidiously making inroads in our society to effectively destroy our Republic forever.

Cranford Photo

Our failing educational system has not equipped our children to continue the tenets of our Founders in keeping our country healthy. It is assumed that it was Benjamin Franklin who, when asked about the kind of government being created, commented, "A Republic if you can keep it."

Many of us feel it in our bones that, against the wisdom of Franklin, we are losing it. I've been watching this decline for the last sixty years. I am a child of the World War II years and well remember the country's unity during those years.

Any political activism on my part began during the election between Richard Nixon and John F. Kennedy when my late registration card was misplaced by the Youngstown, Ohio, Board of Elections. I was twenty-four when I marched alone and with determination into the Board of Elections headquarters to fight for a waiver to allow me to vote in my first presidential election. I received it!!

In later years, I was privileged to serve as a poll worker for ten years in western Pennsylvania where my husband and I were living. I vividly remember the election day of the Obama/McCain campaign. Voters seem to have come out of the woodwork to vote for the first black candidate because there was great hope that his election would end racism as we knew it.

I began to write letters to the editor of our local newspaper, ultimately having a letter published nearly each month for several years eventually even developing a following of like-minded readers. I joined the newly-organized and active local Tea Party.

During the intervening years, both my daughter and I were widowed and shared a home for three years before making a huge decision during the COVID-19 hysteria nearly two years ago. We moved to Florida from Pennsylvania.

One of the reasons for our move was our alarm at what we saw happening in our state and in too many other states during the last couple of presidential elections. Lawlessness seemed to prevail.

But, like many of you have done as well, I have tried, in my very small way, to save my beloved country.

So, having shared this with you, my fellow conservatives and patriots, I can speak to my difficulty in understanding the division among St. Johns County Republicans...especially those who are members of the REC. May I say that there should be Republican unity if only for the obvious reason that any dissension among our various points of view weakens our resolve to "Save the Republic."

Now, let's make that 2023 Resolution today!

Would Be Breathtaking If Our Republican Governors And Conservative Congress Took A Bold Stand Collectively

Bennett Photo

By CS Bennett

We all know that Governor Ron DeSantis is being attacked viciously because of his stance against the Left's WOKE and CRT agendas which has spread across the United States like cancer. This is because he has had the courage to stand up to them, much like that other republican leader they fear, hate and despise so much. In the past, leaders on our side have capitulated whenever they felt they were about to be called racists and bigots. So, they folded when they should have been courageous and stood tall and firm.

It's pretty odd how the Left is accusing the Florida governor of censoring the history of Black Americans and blocking the study of the plight of Blacks as slaves when their side refuses to acknowledge the historical bond the Black community has with the Republican Party, a bond the Left has gone all out of their way to deny existed and have aggressively kept suppressed. What have they to hide? Believe me, plenty!

If I were Florida's governor, I would challenge those on the Left, and those on our side who aid them. I would go Mafia on them. I would say, if you want to put these lies into our government run schools, then you will allow our side to teach them the true history of the two parties and then let us see which one wins over the minds of our youth. We have to stand up and stop the Left from barring conservative minds from coming into government schools to teach our children the truth about the history and roles both parties played during slavery, the breakup of the Union, the ensuing Civil War, Reconstruction, and the passage of the 13th, 14th, and 15th Amendments, all three championed by the 1860s Radical Republicans.

I'll tell you what, if the two histories were placed sided by side, our young people would quickly learn that the history of the Left is shameful and nothing to be proud of. As for republican leaders who came long after the 1860s renowned Radical Republicans, I fault them for not defending who we are and the issues we conservatives want to promote, especially during Black History Month which is a great opportunity to juxtapose what we have done for civil rights and how this one party liberated a group of

people from the oppression and bondage placed on them by a group of malcontents who waved the Dixie banner, and found refuge and support from the Democrat Party.

As for talks of reparations, if there are to be any, it should come from the Democrat Party's coffers, since they were the ones who supported slavery, instituted Jim Crow Laws, created Poll Taxes and had as its militant wing, the infamous KKK.

Let's not hide from the truth and the lies of the democrats. We must speak out! When they tell you that you are a racist and bigot, fire back that it was the party they supported, who enslaved, raped, tortured, sodomized, tarred and feathered, and held back the ancestors of the Black community, and did everything in their power to keep that community from voting and from becoming financially independent from government.

Finally, if you believe in life for all, tell these socialist that it is their ignoble political party who has little, or no, regard for the precious lives of the unborn. Yes, let the chips fall where they may for this is what happens when truth enters the conversation.

Yes, if I was the republican governor of Florida, or the republican governor of any other state in the Union, and was viciously attacked on this very subject, I would let my voice resonate like a four-story size bell, loud and clear, as I introduce truth into the equation. My compatriots, we have to shine the light of truth when confronted by the dark and nefarious lies of the Left... To do anything less is an exercise in futility and will result in our own subjugation and oppression...

SATP Staff Screenshots

Tea Party Holding Sheriff and School Board Accountable

Porn in Public Schools and Sheriff's Refusal to Enforce Florida Law Exposed

On January 28, 2023 the Saint Augustine Tea Party (SATP) conducted demonstrations at the intersection of State Road 312 and US Hwy. 1S, reportedly the busiest intersection in St. Johns County, Florida.

The SATP, which formed in 2010, has a history of organizing demonstrations in the streets of Saint Augustine and in St. Johns County (SJC). "In 2014, when most other Tea Parties were eliminated by the Republican Party and their political operatives on a national level, the SATP has continued to fight on for the interests of "We the People" against the corrupt political system so very prevalent today." Former SATP Chairman, Lance Thate, stated: "At issue today is the existence of pornography in SJC school libraries and the SJC School Board's refusal to do anything about it as they enjoy the support of the SJC

Sheriff's Office (SJSO). I am so very proud of our new, younger SATP members who continue the struggle for what's right and honorable. Their bravery does not go unnoticed," Thate concluded.

Today about 20 people spread out across the four corners of the huge intersection of 312 and US 1 and on the various traffic pedestrian islands to protest against the cultural revolution of the communist left with signs and flags. A 105.5 FM Reporter interviewed numerous demonstrators including the Deputy pictured above.

Shawn Morrison, the current SATP Chairman, made the following statement:

"We passed out about 100 fliers with a short list of the books as well as censored excerpts to cars that were held up in traffic. Also SJSO complaint forms were distributed. We were approached by a SJSO Deputy who was very friendly. He has children in the SJC school system. He was unaware of the issue but seemed to have a like mind as we. He took a copy of the books as well as the Florida Statutes which we cited and said he'd be looking into it. The St. Augustine Radio Station, 105.5 FM, did lengthy interviews and will be airing a story about the SATP demonstrations that will take place on January 30, 2023. Today's demonstration was only the first of many demonstrations that will be held at various locations in the future. The Tea Party is dedicated to bringing decency back to St. Johns County and to the Country. The Tea Party Movement is alive and well in the America First Movement."
