We Have A More Justifiable Boycott Case

By CS Bennett

Bennett Photo

So, the National Association for the Advancement of Colored People (NAACP) are warning Blacks about coming to Florida, and they do this by calling for a boycott of the Sunshine State. Why? Because this is one of a few states that will not be bullied by their progressive agenda and their communist based ideology. It is as simple as that.

Florida is a free state, again, just one of a few. We do not subscribe to being pushed around by government or the power elites of the world. Aside from believing in freedom, we actually believe in the sanctity of life and we believe in the very divine entity that gave us life. And for that reason, we treasure life, especially the life of an at-risk newborn, or the innocent and defenseless unborn.

As a constitutionally free state, we believe we have a right to bear arms to back up our right to speak our minds and be free to have a difference of opinion than those who would force feed us their satanic left-over sixties Marxist garbage. We are peace lovers, but unlike some in our leadership, we are not afraid to stand up for the principles we believe in. You who took an oath to do what is constitutionally right will be held accountable for what you do, or don't do, especially the things you got away with in the past.

As for boycotts, how about Florida boycotting all liberal urban areas. Florida's Black conservatives are surely at risk when they visit such areas, especially if they should be bold and courageous enough to

announce that they are conservatives. All are likely to face ridicule, scorn, hostile threats and bodily harm when in these areas where they are not wanted or welcomed.

If there is going to be such a boycott, it should be targeted at those who hate and cause riots, to include those who go about destroying personal property. And what about Blacks who live in these areas? They are at risk every day from Black-on-Black crimes. Perhaps they would be wise to get out of Dodge while they can. From the reports I get about these urban jungles, it is a war zone for some, with narco-terrorists battling it out on the streets in broad daylight.

If the NAACP would do its job and forge ahead with the advancement of the Negro, whom they claim to serve, then, they would help clean up urban neighborhoods that are held hostage by poverty, failing schools, drugs and drug violence, senseless killings, and out of control abortions. If they were truly honest about how much they have failed this community, they would be encouraging Black residents to pack up and head for Florida, the 'free state', while they are alive and well and can still get out.

As always, such groups are misguided and usually dishonest about their true intent. I say to Blacks who are tired of surviving life in the hood, and they are good citizens and grounded in the Word, then come to Florida, but when you do, leave your politics where you came from. Florida is a place where you can learn what it is truly like to live, worship, prosper and be free...

The Govt Canceled my Speech at Arlington National Cemetery

Dear Ms. Lunelle,

Why is the US Government telling us that we can't hold an uncensored Confederate Memorial Day Service at the "Reconciliation" memorial at Arlington National Cemetery?

Are they afraid that the lies Elizabeth Warren, mother of the 'so-called' Naming Commission, will be exposed?

For example: *"Black soldiers are offended about the Confederate names of military bases"*.

Edgerton Photo

Even though there has never been any evidence or actions to support this claim against these base names. In fact, they exude pride from those who were assigned there in the past and present.

This is more of the same woke, ungodliness that was spread by Yankee evildoers who came south to rape and plunder and who use their chicanery to destroy the historical unity between the Southern Blacks and Southern Whites.

And they have done everything to include inventing new types of humans to enlist the help for their depraved populist, with a man being a woman and a woman being a man in violation of God's law,

and replacing him with Dr. Frankenstein. These evil goals got their root in that Holy War deemed the War Between the States.

The Almighty God knew what he was doing when he allowed the exodus of those Black people to the shores of the South. And important to note, in the year of our Lord 2023.

I had looked very much forward to being the keynote speaker, with the family legacy of including being the son of former Southern slaves, grandson of John Mounty Robinson (a World War II Veteran deployed with the Expeditionary Forces), brother of Rashad Hasan, deployed with the United States Army Signal Corp at Okinawa, and a United States Army Veteran who taught Basic and Advanced Electronics at Ft. Monmouth, New Jersey, myself. As one who took basic training at Fort Bragg, North Carolina; there was a great sense of pride to be at the home of 82nd Airborne Rangers and to gain tutelage from the heroic Drill Sergeants and their Commanding Officers. And that message resonated across the armed forces.... .But the United States Government has decided that it will not allow **this** Memorial Service.

I wonder do they plan on carrying out their nefarious deed of removing the Reconciliation Cenotaph so championed by their very own Commander In Chiefs who recognized the true patriotic zeal of the American soldier whose birth place is in the Southland of America.

And just as the lies circulate here about the Southern Confederacy, they too circulate about the Southern Cross that garnered honor in every war engaged in by American forces since the War Between the States (WWI, WWII, Spanish American War, Korean War, Vietnam War and beyond).

And I say we veterans are offended as we watch our Constitution and the moral authority of the Almighty God under attack by the new woke military with Dr. Frankenstein in the medical corp. And, yes, had I been allowed to give the Keynote address at Arlington Confederate Memorial Day this year; I would have spoken about the greatest Patriots, and heroes, and their siblings in these United States of America, those called Southern. Perhaps that is why! God bless you!

Your brother, HK

Flag Day Donald Trump Town Criers

Flag Day Marks the 12th Anniversary of the First Public Appearance of the Town Criers

TCCR Staff Photos 6-14- 2011

TCCR Staff photos 6-18-2018

that sixty-five years later, on **June 14, 2011**, the **Town Criers made their first appearance in the historic district of St. Augustine, Florida** and they have been sounding the alarm ever since... a full 12 years. The picture on the upper left was taken on Flag Day 2018.

The original Town Criers are pictured above. Women dominated the first Town Crier volunteers. The streets were safer in 2011. The Town Criers confronted an Occupier group in November 2011, but they were mild compared to the BLM communists of today. One of the ladies has since passed away; two ladies have moved to distant cities and another has retired as part of the aging process. Lance Thate, Town Crier Chairman, though aged, continues on.

On **June 14, 1777** the Second Continental Congress established the first National flag, now known as the Betsy Ross flag, as the official American flag. Harry S. Truman, President of the United States of America, designated **June 14, 1946**, as the first permanent “Flag Day” and directed that the flag of the United States be displayed on all government buildings on that day.

Also, **Donald J. Trump was born on that very first Flag Day**. Some say that “The flags were placed on government buildings to celebrate Trump’s arrival.” We cannot verify that, but we do know

FB Image

The Town Criers were well known for the exposure of Barack Obama as a communist. The sign, "Obama is a Communist," became a standard during the Obama presidency. The original sign near the end of its life is

pictured left. The Town Criers produced five generations of that sign during the Obama years. It was the most popular sign they ever carried.

TCCR Staff Photos 2012

Vice-President Biden, when he visited St. Augustine in 2012, took note of the Town Criers' signage as his limo passed. A surprised look appeared on his face when saw the 'Big Red Sign.'

It should be remembered that exposing public officials as communists in public settings was strictly taboo in 2012. Media personalities and politicians never exposed the communist threat in public. Even the beloved, late Rush Limbaugh, never used the "C word." So the Town Criers were exceptional when they started the practice on Memorial Day 2012. What the Town Criers discovered, from the national focus group that appears on St. George Street daily, was that the public was ready for the truth early on; the media and the political parties were not.

TCCR Staff Photos 2012

As an example of how much the situation has changed, the duly elected 45th President of the United States, **Donald Trump**, at a rally in Georgia recently **said, "At the end of the day either the communists win and destroy America or we destroy the communists."**

St. Augustine's Town Criers have been exposing the truth since that very first public encounter with America's middle class on Flag Day 2011... they've been right from the start.

Town Criers' 12th Birthday Celebrated

TCCR Staff Photos 6-14-2023

6-14-2011

Town Criers reports that in addition to the Birthday celebration, a St. George Street Poll was conducted by Dave Heimbold regarding the preference between Biden and Trump and a study of recent swings in public attitudes was conducted. These issues are a continuing story and will be addressed soon.

On June 14, 2023, The St. Augustine Tea Party's Town Criers assembled in the historic district to celebrate its 12th Birthday and to honor those who have participated over the years. The only founding Town Crier member still active is Lance Thate. Thate was also the former SATP's Chairman for nine years and is a founding member of the SATP. According to Thate the only reason the Tea Party survived in St. Augustine is because the Tea Party stayed as far away as possible from the "Do Nothing Republican Party." Political parties are death to populous grassroots organizations. The Tea Party didn't waste time on politicians; we engaged the PEOPLE. Thate went on to say:

"The public showed its love and affection for the Town Criers from the very start. By standing up in public promoting political concepts which are based on truth and goodness, we inspired the folks visiting St. Augustine. We came to understand that the people who come here are the conservative middle class and they come from all over the nation. When they see us in the streets, we give them HOPE. Town Criers do not force themselves on the people—the people come to us."

Town Criers reports that in addition to the Birthday celebration, a St. George Street Poll was conducted by Dave Heimbold regarding the preference between Biden and Trump and a study of recent swings in public attitudes was conducted. These issues are a continuing story and will be addressed soon.

St. George Street Poll

On June 14, 2023, Town Crier pollster, David Heimbold, conducted a St. George Street poll in the historic district of St. Augustine, Florida.

St. Augustine is the oldest European-founded city in North America. Consequently, the city draws a steady stream of tourists, creating a very unique demographic population. The poll is a random selection. Since 2012, the Saint Augustine Tea Party's Town Crier Committee has been conducting polls on the City's historic St. George Street. The results of these polls over the years have given the Town Criers the ability to make some very accurate predictions. Based on their experience, the Town Criers have come to the conclusion that people who visit St. Augustine are a middle class focus group. The group has a strong bias towards Republican and Independent voters, with only a few Democrat voters present. However, it is the middle class that determines Presidential election results, given the struggle between urban and rural communities and the presence of the Electoral College.

TCCR Staff Photo

June 14th 2023, St. George Street Poll Question: "Who will you vote for?" The results are as follows:

Trump 92%

Biden 8%

Hillary Clinton had single digits polling during her run for the 2016 presidential run.

June 19, 2023

A Revival on St. George Street

TCCR Staff Photo 6-15-2013

On June 14, 2023, The Town Criers assembled on St. George Street in the heart of the historic district of St. Augustine, Florida. The Town Criers have made hundreds of such appearances. For as long as the Town Criers have been engaging the public, the public's response has always been one of affection and love. Over the years they have shown this with applause, thumbs up, interacting with Town Criers for photos, hugs and shouts of "I agree"!

TCCR Staff Photo

However, starting with the "J6 Candlelite Vigil" in the Plaza de la Constitución on January 6, 2023, a waning of the near celebrity status of the Tea Party and their Town Criers was noticed. By March 25, 2023, a scheduled Town Crier event, the presence of the Town Criers seemed to intimidate the people who came in contact with them. It was not that they were rejecting the Town Criers—it was more of an avoidance. The change since the Town Criers' last appearance was mindboggling. J6 persecutions, FBI raids and COVID obedience training had induced fear, as never before seen. On March 25th the people were like zombies – devoid of hope, full of resentment towards the rulers but paralyzed with fear.

Clearly, stolen elections have consequences. The coup d'état that was executed on January 6, 2021 and the seizure of Washington's governmental buildings on January 20th with fencing and concertina wire, along with an armed military presence, showed the world that government of the people and by the people in America was gone. The collusion of the Republican and Democrat leadership in Washington that overturned the will of the American people had a profound effect on the relationship between the people and the Tea Party activists.

A popular activity of the Town Criers was the conducting of the St. George Street Poll. On March 25th it would have been impossible to conduct the poll so complete was the avoidance. The Town Criers view the people who populate the historic district as a middle class focus group and as such their focus group was showing a defeated people. Town Crier Chairman, Lance Thate, was prompted to make the following statement: <https://rumble.com/v2f2tqu-st.-augustine-tea-party-march25th-2023.html>

TCCR Staff Photo

The people were terrified by the government's gestapo tactics with various federal agencies directed toward them. The J6 arrests, with the promise of more, the massive FBI raids, the talk of jail time without due process, and the two tier justice system, terrified Americans who have never experienced this type of tyranny in their entire history. "Their zombie like behavior was not because they didn't understand and were confused—they were traumatized," the Town Criers explained.

The horrific experience in March required another encounter with the people on St. George Street to determine the reliability of the patriots' findings; hence, the Flag Day appearance on June 14, 2023. Almost immediately the public acknowledged the Town Crier presence with enthusiasm. Their paralyzing fear was gone. A transformation had taken place...a revival if you will. So what brought the people back from the brink of defeat and surrender? The simple answer is the presence of Donald J. Trump. The focus group, which is national in scope

and changes daily, was simply reflecting the people's changing prospective. What they are now displaying is what other media sources are reporting.

From the time Trump left the White House on January 20, 2021 until his announcement of his candidacy for 2024 election on November 15, 2022, Trump's domination of the media had been greatly reduced and replaced with negative commentary about the economy, inflation, failure of the dollar, bank failures, the destruction of our medical care system, the realization that COVID was a hoax and the incredible illogical and stupid rhetoric regarding biological sex, all dragging down the American psyche. What Trump was going to say and do was not really answered until March 26, 2023 when he held his first reelection rally in Texas...the day after the Town Crier's March 25th event.

Unknowingly the Town Criers hit the low point in the conservative middle class psyche. We now know that the arrogant left has overplayed its hand. On March 30th Trump was indicted in New York City and his poll numbers improved. Then the indictment in Miami on June 13th blew the roof off. The indictment has shown how strong this leader is and demonstrated his resolve to promote the MAGA cause.

TCCR Staff Photo

TCCR Staff Photo

is that Tucker is receiving as many views as mainstream media—hundreds of millions of viewers compared to three million when he was on Fox. The communists have inadvertently opened the door for the truth.

The pictures included in this article show some of the people who joined and participated with the Town Criers on June 14th. Incidentally the red sign that states “I stand with Trump” was created in late March...two and a half months before Trump made it the sign

TCCR Staff Photo

of choice in front of the Miami Courthouse. Seems the St. Augustine guys are always on the leading edge and all because they mingle with the people, which gives the Town Criers a chance to witness the revival on St. George Street.

Another factor energizing the MAGA movement is the communist’s attempt to control free speech and media manipulation. With their arrogance the communists demanded that Tucker Carlson be silenced on Fox News. Again backfiring big time, the left’s action put Carlson on Twitter allowing him to say things that could never be said on Fox—ten minutes of TRUTH on Twitter being worth more than 24 hours of propaganda and lies on MSM. The kick in the head for the left
