Eight Years Counting

Town Crier Committee Report Starts 9th Year of Publication

Town Crier Committee Report was sent out. At the time, there was a struggle between the Republicans and those of the "Tea Party Movement" in St. Augustine, Florida.

The Republicans wanted to use the popularity of the Tea Party to promote their candidates, which often included "Liberal Republicans" (RINOs). The Tea Party Movement is about returning to our founding documents. Constitutional governance and fiscal responsibility are hallmarks of the Tea Party Movement. These conservative values have never been part of the Republican agenda.

Local Republicans tried to remove duly elected officers which the grassroots membership voted for and install a 12 member Republican board in their place. Their plan would have made the membership "invited guests" with no say in the affairs of their Tea Party. The attempted coup d'état, of the St. Augustine Tea Party (SATP) failed in June of 2011.

So Republican Executive Committee members formed their own Tea Party.

Issue one of the Town Crier Committee Report (TCCR) covered a three month period. Its sole purpose was to establish that the SATP was the legitimate Tea Party in St. Augustine. The TCCR staff did so by reporting the numerous activities of the SATP while the Republican's Tea Party stood mute awaiting future elections.

At the time issue one was written, the writers never anticipated an ongoing publication. But then things happened and the Town Criers

responded. Eight years later, things are not only still happening, but they are happening at an accelerated pace.

As we post this issue, eight years later, the SATP is still under attack; this time by the Democrat Communist left. Be assured, we will continue to alert you to the dangers that threaten your Liberty.

Gun Safety First

The Tea Party went WEST for their October 8th Open Meeting, to the very edge of St. Johns County. Yes, there's lots of land out there and people packing 'heat'. To hone skills, there's a 1000 yard gun range where you can sight your rifle.

Photos by TCCR Staff

"In times like this, when shootings happen every night in Jacksonville, just north of St. Johns County, it is smart to pack 'heat' ", says Lance Thate, St Augustine Tea Party (SATP) Chairman, "However remember to have a valid concealed permit for your hand piece".

Shootings and stabbings are on the increase in St. Augustine, once a sleepy historical city. Today, the City has a growing night life with drunkenness, growing civil lawlessness and a police force hamstrung by 'Social Warrior', John P. Regan the City Manager, who should have been a social worker or a priest. Regan was thrilled when he helped clean up the septic tank problems in West Augustine but neglected residences on the beach. The last straw was Regan's claim that as City Manager he could have the ' Veterans Memorial in the Plaza taken down, in secret at night, in just 8 hours bypassing public protests. Former Mayor, Nancy Shaver, resisted and stopped him. His sympathy was for the 'race baiter', Ron Rawls, and the "Take em Down" Communists from Jacksonville.

Out here in the West is Hastings, potato farming country, where a man is a MAN, a woman is a WOMAN and where County Commissioner, Jeb Smith, lives with his family. His children say "Yes, sir", "No, Sir", "Yes Ma'am" and "No Ma'am". There is no androgyny permitted out here. People know the difference between a bull and a heifer! Here's Jeb, with Lance and Lucky Howe, a highly respected WW11 Marine Vet and Tea Party member.

“So remember: When holding your pistol in your hand while talking to someone, don’t keep your finger on the trigger and do not point down to your foot or you might Shoot Yourself in the Foot! Always keep your trigger finger outside the trigger guide”, Steve Moranda advised the Tea Party attendees.

Jeb's father, Wayne Smith, owns a gun shop, shooting range and a big spread and he is a man to be reckoned with. Mr. Smith hosted the Tea Party event.

"Well, Folks, we had a great time at the range. Keep your powder dry cause we'er gonna be a fussin with these Communist Democrats; the feud with the lying critters in D.C. is comin up soon. We all got guns and we know how to use em! Yes, Sireee!" Dave Heimbold, SATP Media Chairman, said in the spirit of the event.

Power + Money Coupled with Human Nature Results in Corruption

P+M) X (HN) = RC The equation explained.

by John Knapp

There's so much Deep State in the way. Is there too much of it, to go after it all? Has red-blooded, American political DNA been irretrievably watered down and diluted, in just 237 short years?

The Deep State has everything to lose here. In spending decades rearranging and maligning the Founders' original instructions, the Deep State has managed to insert itself between We the People and the America promised to them at its Founding. This is why Donald Trump is such a horsefly in their bureaucratic ooze.

The 5 (bedroom) counties surrounding Washington, D.C., have the highest per capita wealth of all the counties in entire country! And, Aye, there's the rub! This is the biggest and best clue anyone needs, to understand how federal bureaucrats and politicians have 'fixed' things for themselves, at everyone else's expense.

This perfectly explains why Trump is so hated and threatened by them. As always, just follow the money.

Donald Trump is thoroughly understands that over time, Power plus Money, multiplied by Human Nature equals Rampant Corruption. In scientific notation, $(P+M) \times (HN) = RC$.

Though my written equation may look a little Einstein-ian, it ain't rocket science. The Founders instinctively knew this equation, way before there was rocket science, or even a United States of America. They tried to guard against this fateful equation again coming to pass.

So are we going to beat back the ubiquitous flow of stupidity and corruption, or what? Are we going to fix this mess, or let it go terminal? Americans don't succeed because of their government. More and more, Americans must succeed, in spite of their government.

If America is to succeed, something serious must be done about lousy government.

'The patriot's duty is to protect their country from its government', so noted Thomas Paine, wise, prescient words, for today, and ever.

The Latest Impeachment Poll

The Left's Obsession: Impeachment

Recently Fox News reported that their poll revealed that 51% of the public wants President Donald J. Trump impeached. Suspecting Republican elitists' manipulation, the Town Criers of the St. Augustine Tea Party conducted a poll in the historic district of St. Augustine, Florida.

This is an activity that's been going on since 2012. The National audience on the city's famous St. George Street has a unique demographic that has allowed the Town Criers to make accurate predictions well before others. In early 2012, the St. George Street Polls predicted a Romney nomination and a failure in the general election. In early 2016, the same poll predicted a Trump Presidential victory months before his Republican nomination.

The St. George Street Poll is a face-to-face random selection. The demographic is national in scope. The sample changes daily.

Pollster David Heimbold, reports that the public's opinion was not up for debate; opinions were very strong. Both sides of the question have already made up their minds. At the mere exposure to the sign pictured here, the public responded on Sunday, October 13, 2019 with shouts of "YES or NO".

Poll results:

Impeach “No” 69%

Impeach “Yes” 31%

As the Town Criers have been reporting for some time now, Americans are choosing sides; they are not seeking consensus.

Pacetti Addresses Standing Room Only Crowd at Tea Party Meeting

The St. Augustine Tea Party held their open meeting on October 22, 2019 at the Mellow Mushroom restaurant in St. Augustine Beach, Florida. The featured speaker was Jill Pacetti. Ms. Pacetti is a political activist and former candidate for the City Of St. Augustine Commission seat 4. She became politically active when the progressive communists began attacking the Veteran's memorials located in the Plaza, in the historic district of St. Augustine, Florida. Ms. Pacetti is a lifetime resident of the area. Her family name appears on one of the Veteran's memorials. Jill joined the Tea Party about two years ago and has been an active member. The Tea Party also has concerns about the cultural war that is attempting to change our history.

In September, Jill Pacetti was joined by Lunelle McCallister and Gail Jessee in Tallahassee. While there, they passed out flyers to senators, regardless of their party affiliation, showing vandalism done to Veteran's graves and memorials. "We were looking for support for a new bill like the one that we
TCCR Staff have filed for the past 2 years regarding our Monuments and Memorials Protection Act. We have Mike Hill as our sponsor. Former Lt. Gov Kotkamp is working on the wording for a new bill and he is including a portion of the bill which will no longer allow "plaques or wording" to be placed on existing memorials and monuments. These plaques rewrite history in favor of those who want these memorials removed," Pacetti explained.

Photos by

The trio also met with Secretary of State Laurel Lee and asked her to send a letter to UF telling them to "cease and desist" with placing a contextualization plaque on General Loring's memorial. The Secretary indicated that she didn't have the power to do it unless there was a law. "We told her we are working on that. She was very nice to us and wants to help," Ms. Pacetti shared.

For lunch, Ms. Pacetti met with Lt Gov Kotkamp who took notes on our concerns for a new bill regarding Memorials and Monuments. "The bill would prevent removal and create harsher penalties for vandalism, as well as, not allowing plaques to be placed on existing memorials rewriting their history," Ms. Pacetti said.

Jill Pacetti's presentation was given to a well attended audience with standing room only. In spite of the success of the meeting on the 22nd, the attacks on the Tea Party from elements of the progressive communists continue. The attacks are coming from various sources. But the inspiration comes from Saul Alinsky's tactics as outlined in his book, "Rules for Radicals".

"When the Communist Left calls you a "White Supremacist" or a "Racist", you are supposed to apologize and disappear," Lance Thate, SATP Chairman explained. "Well, we have nothing to apologize for. We have had 8 black featured speakers over the last nine months. The last one was the delightful couple, the Michael's, from Jacksonville."

"We are not going away either," Tea Party Chairman, Lance Thate said. "By the way, we are not cowardly Republicans. The Tea Party pushes back. This is not the end of the story; it is the beginning. There is more to come next month."
