May Day

There’re Laughing in Beijing

FB Image

Today is May 1, May Day, a traditional day of celebration for Communists.

And, there must be jubilee in Beijing. The Chinese Communists have been given special preference in our trade arrangements for over 40 years. The open promotion of the “New World Order” started during the first Bush administration. Never has a nation exported its productive capacity in such great abundance. Never has a nation permitted its intellectual assets to be stolen on such a grand scale. The Chinese Communists have grown very accustomed to dealing with an America that is willing to subordinate its vital interests.

You

Then Donald Trump enters the scene; a vibrant American who sees clearly the fallacy of such a policy. Special interests doing well; the people being betrayed. His “Make America Great Again” campaign is not acceptable to the Communists leaders in China. So while President Trump thinks that he is going to get equitable trade agreements with the Communists in Beijing, the Communist leaders simply escalate the war against America that they have been conducting since their very founding in 1948. The destruction of capitalist and free societies is an essential part of sustaining Communist rule.

The war that Communists have been conducting is not a "Hot War" or a "Cold War". It would be better described a "Covert War". Some months ago the Chinese Communists escalated and leashed upon the world bio weapon attack. The primary purpose was and is the removal of Donald Trump from the White House. They

want to return to business as usual. It is an error to think that the "Wuhan Virus" and the trade agreements are not connected.

They are watching America's reaction and what they are seeing is a people in a state of fear and a presidency which has resorted to the exactly the same response George W. Bush in enacted in 2008. The major difference is that Bush dealt in billions of dollars and Trump deals in trillions of dollars. The "Big Government" approach to the "China Virus" has in just over 40 days toppled the prosperity that took three years to build and Beijing is laughing. Communists all over the world have much to celebrate this May Day and "We the People" anguish Mr. President.

Hard Times Down on the Corner.....

By John Knapp

I was breaking quarantine this morning, out 'n' about. Lots of other people were out there, too. Protesters 'R' Us, we wuz. I went into a local credit union on business. They had a masked employee at the front door who was letting in only one or two customers at a time. They had big round stickers, complete with printed footprints, stuck to the floor, to designate where to park your feet while you waited for a teller to risk motioning you over. There were maybe 10 employees inside the bank, each wearing a mask. I suppose I felt safe from them, but it still looked like a very dangerous situation. How do bank robbers conduct business these days, when everyone in the bank is wearing a mask, too? Do bank robbers have to stand on the footprints on the circles, and just wait?

I was the only one not wearing a mask. I was afraid if I even cleared my throat it would set off sirens, fire alarms, and German police dogs barking over a loudspeaker. When I went to leave, the masked lady bouncer who was guarding the front door let me out. I stopped long enough to tell her I thought that all of them were too scared by a factor of 10. She just stared at me, sorta wild-eyed.

So, later on I rode past Wal-Mart. There on the corner was a scruffy, fuzzy-faced dude in a white T-shirt and sporting a crudely-lettered cardboard sign indicating he needed money. Or beer. (Or something.) He was at work, at his job: hustling up to this idling car or that one. He was not really exercising any social distancing, but he was wearing a mask and rubber gloves. I've seen him there several times, as it's his favorite corner. The bottom line here is that, in being 'out there' like he was; he was protesting the lock-down, too. Good for him! The other bottom line is that public begging now has overhead: masks, rubber gloves, and maybe hand sanitizer? It's even hard times down on the corner.....

Protests Erupt Against City Manager Regan

The population of St Johns County is about 300,000 people, adding residents and tourists from all over the country at any one time. In the last 6 weeks, the total number of hospitalizations with the Coronavirus was 39, the number of cases was 222 and the number of deaths, 5. Yet, tens of thousands of people have been laid off. Thousands of businesses have been shut down.

It has been about 2 months since the City Manager, John Regan, started to shut down the historic district by canceling the Celtic festivities, which resulted in tears flowing from the extreme hardship it caused. The businesses in St Augustine had purchased inventory and booked entertainment resulting in hundreds of thousands, no... millions of dollars of expense. On March 12, 2020, the start of the shutdown of the historic district began with the canceling of the Celtic Festival scheduled to begin the next day. At the time, there was not one death from the Wuhan Virus in St. Johns Co. The first death occurred on the 25th of March. From the 25th of March to the 16th of May, there've been a total of five deaths attributed to the Coronavirus and only 39 hospitalizations. [Death rate 0.000017%]

Meanwhile elective surgery in the hospitals was stopped. Personnel in the hospital were laid off. It was a lot of to do about nothing in St John's County and the other counties to the West and South of St. Johns County, Florida. This is what happens when politicians with their Progressive Communist agendas interfere with the normal course of business. In the name of public safety, Constitutional Rights are being trampled on. "Those who would choose Safety over Liberty will have neither", Doug Russo, SATP member and local pastor said.

Now, after 60 days of an absolute debacle with unemployment at all time highs, people wearing masks and walking around frightened to death, the City Manager is equivocating about having or not having the fireworks on the 4th of July, which is the biggest event of the year for tourism and for the residents.

Photos by TCCR Staff

Photos by TCCR Staff

The two pictures here show the theme of the Town Criers demonstration at the busiest intersection of St. Johns County on the 25th of April. The two themes of the event were “Enough is Enough” and “Open the Shutdown Now”. Action News Jax had a cameraman at this event, who interviewed Dave Heimbold, SATP Media Chairman, for about 5 minutes but ignored most of his comments. “However, they did mention that we were upset about the fact that the seniors couldn't bring chairs to the beach and the disaster that happened to the restaurants. That was to their credit, but they ignored the comments made about Dr. Fauci the ‘Hero Extraordinaire’ of the media,” Heimbold disclosed.

On Saturday May 16th, the Town Criers again, took to the same four corner location and, in a little over an hour, got the attention of 5,000 locals who have to Stop & Go at the four-way intersection. Many, many of them were beeping their horns in support of two things: Saving the fireworks at the Fort in St. Augustine and firing the City Manager, John Reagan.

City Manager, John Regan, has a colorful past according to Lance Thate, St. Augustine Tea Party Chairman, who has been following his bizarre handling of Ron Rawls, the race baiter from Gainesville who has interrupted the Nights of Lights celebration for 3 years running. Regan ordered the Chief of Police, Fox, to personally protect the race baiter and his dozen or two troublemakers and then give to them preferential treatment as they interrupt the Nights of Lights and other events enjoyed by the peaceful citizens of St. Augustine. If they oppose Rawls, peaceful protestors are met with threats of arrest. Police Chief Fox answers directly to the City Manager.

In a recent incident in which City Manager, Regan, threatened to the tear down the Confederate Veterans Memorial in the Plaza St. Augustine, he boasted, “I can have this thing down in 8 hours”. He suggested that it could be done at night, in secret, without public interference.

Now Regan is flip-flopping on the 4th of July, Independence Day fireworks. He needs to be fired or retired.

Surrounded by the Enemy

Image Internet Screen Shot by TCCR Staff

When President Trump decided to create a Wuhan Virus Task Force, Vice President, Mike Pence, was assigned the task of creating the team. For the medical experts, Pence appointed “Washingtonian Elitist Bureaucrats”. Nowhere to be found were any experts from the private sector. Those appointed:

- Alex M. Azar II, the Secretary of Health and Human Services;
- Dr. Robert Redfield, the Director of the Centers for Disease Control and Prevention;
- Dr. Jerome Adams, the U.S. Surgeon General,
- Kenneth Cuccinelli, United States Immigration Official,
- Seema Verma, the Administrator of the Centers for Medicare and Medicaid Services;
- Deborah Birx, Ambassador-at-Large for the State Department’s Global AIDS Coordinator;
- Dr. Anthony Fauci, the head of the National Institute of Allergy and Infectious Diseases at the National Institutes of Health.

Deborah Birx and Anthony Fauci have emerged as the face of the medical team. Neither of these two “Deep State” experts have ever had a job that was not part of the Federal Government after completing their University training. The only reference point for either of them is the University system and Federal employment. Could it be possible that they see the world from a Progressive point of view?

Birx, a former physician in the United States Army, has worked for more than 30 years in the global health sphere, researching vaccinations and immunology for HIV/AIDS. In 2014, Obama appointed her as a State Department Ambassador at Large; a position she still holds. Her husband, Paige Reffe, is a DC lawyer and former Clinton advance man.

Dr. Anthony Fauci has a similar back ground. Straight out of college to the National Institute of Allergy And Infectious Diseases. Anthony Fauci has been the director of the National Institute of Allergy And Infectious Diseases since 1984 and has served six Presidents of the United States. He's a Washington insider by any definition. He is also connected to the China Virus, as Horseshoe Bats were studied in the United States at the University of North Carolina at Chapel Hill. In the face of a moratorium in the US, Dr. Anthony Fauci outsourced the research to China's Wuhan lab in 2015, which was during the Obama years, and licensed the lab to continue receiving US government funding. Whether he was directly involved needs to be investigated but he clearly was familiar with the China Virus and the fact that it was not a killer. So what does that make his computer models... Fraud?

Both Birx and Fauci are resisting a move to open the country up. They insist that the only safe way to open up the country is to have a vaccine. So as Trump rolls out the opening up of the country task force, they stand there mute, with their face masks on. Notice that, previously, for several weeks, they did not wear masks.

Nothing happens politically in a vacuum and without intent. The execution of political correctness is exquisite. A blue mask for her and a pink mask for him. Clearly the enemy is at hand.

No Simple Solutions from the Government Doctors

FB Image

Meanwhile, at the national level there's a frantic race to get a vaccine for the Wuhan Virus. Most Americans are not really thrilled about another vaccine. The flu shots have a history of being hit or miss so there's no guarantee that a China Virus vaccine would be 100%.

Self-sufficient Individuals who make up the majority of the ambitious working class are saying, "Oh, what about me? Why am I being punished? I've heard that medical personnel working on covid-19 patients are taking a preventative called hydroxychloroquine. That way, if they get the disease they will be able to cope with it better. But I can't get any." Inquisitive minds want to know why they can't have this preventative like the doctors. They also want to know why Facebook and the like are removing information about hydroxychloroquine.

On May 19, 2020 the President disclosed that, as a preventative, he is taking hydroxychloroquine; the Communist Congressional leaders are livid.

The answer is simple; Dr. Fauci and Dr. Birx don't want you to know that this very inexpensive remedy can make all this sheltering-in-place nonsense irrelevant for most of the population. The senior citizens and those perpetually ill people with diabetes, high blood pressure and other pre-existing conditions are much easier to care for when the economy is humming and the vast numbers of Americans are working. So the vast majority of the population has to put up with the fact that they've been conned as they are not being told about HCQ. They have not been told that it's a very inexpensive treatment that has been used for malaria, arthritis and other diseases for years, going back to the 1940s, with no side effects.

HCQ is a modified dose of quinine. Quinine has been in medical use for 400 years up until the late 1930s and 1940s when chloroquine, which is a compound of quinine, was introduced to the public.

A handful of doctors have announced the fact that quinine, with a combination of zinc and a Z Pack would be the most effective treatment for this dreaded disease.

However, the most highly-touted Dr. Fauci and his helpmate “the Scarf” have put the entire government on a different path, which is to find a vaccination and to discredit HCQ. Why are they discrediting something that actually works to prevent and swiftly cure the Coronavirus?

The answer is quite simple. The pandemic is not about health, it is about control. The World Health Organization, WHO, and Doctor Fauci's cabal are players in a much bigger worldwide agenda.

A free and prosperous America must be destroyed before the New World Order can become a reality. Those who would make the peoples of the world their subjects look to Totalitarian systems. In the early 40s, the Nazi model was projected as the way of the future. Today it is the Chinese Communist model that is projected as the way of the future. But the concept of individual liberty as expressed in 1776 is still revolutionary. A great struggle of ideology is underway.

China has been raised up since the Nixon administration at the expense of the American people. China has grown accustomed to the transfer of our production, wealth and intellectual property to their cause. So when Donald Trump came along with “Making America Great Again”, it made him China's number one enemy. Therefore, anything that helps Donald Trump must be eliminated, including recommended early use of hydroxychloroquine.

Dr. Fauci while wearing his pretty pink Face Mask could not stop touching it and his face. Apparently leading by example is not part of the Doctor's skill set.

Check out this RN's opinion on the wearing a mask for extended periods,

May 22, 2020

Land of the Free Home of the Brave No More

The face of tyranny is appearing across large sections of America. It is being propagated by ignorance and an unreasonable, irrational externally induced fear. A steady stream of disinformation, adjusted to the situation, is being thrust upon the American people by US Governmental Agencies, such as Centers for Disease Control and Prevention [CDC], here in America and from corrupted sources, such as the World Health Organization [WHO] from around the world. Complicit in all this are the TV media outlets of both the Democrat and Republican persuasion. The American people are being manipulated into wearing face masks. The most grievous disinformation, regarding the prolonged wearing a facial mask, must be exposed.

Photo by TCCR Staff

- **First of all, loose fitting facial masks, so prevalent in public areas, do not protect the individual from viruses;**
- **They are designed to offer some protection against bacteria;**
- **Viruses are 1000 times smaller;**
- **COVID 19 [Wuhan or China Virus] is a virus.**
- **While there is some evidence that infected people may protect people in their immediate presence from infection by wearing a facemask;**
- **There is little evidence to support the idea that well people benefit from wearing a mask;**
- **To get viral protection with a facemask you need a special, individually fitted N 95 mask;**
- **That's not what you're seeing in the public arena;**
- **Loose fitting masks that you see, worn over extended periods, can actually trap bacteria inside causing more problems than they solve.**

In addition to the disinformation regarding facemasks, incredible distortions are being created by the manipulation of data regarding the severity of the China virus. Evidence clearly shows that this virus is not a killer in the traditional pandemic sense of the word. The numbers and the computer models don't work. The facemasks are totally unnecessary and the shutdown was a bureaucratic fool's endeavor.

The circumstantial evidence, as of now, reveals that the Chinese Communists have unleashed a bio attack on the world. A thorough investigation must be conducted and has been requested by over 120 different countries. We live in an era of not hot or cold war, but a “Covert war”. Viral attacks, both bio and digital, are taking place.

The casualties from this bio attack, subsequently named a pandemic, are freedom and courage beyond comprehension. The “Land of the Free and the Home of the Brave” are rapidly vanishing before our very eyes.

Patriots Energized

On May 19, 2020, a group of grassroots political activists with leadership connections to several Liberty minded groups assembled in Jacksonville, Florida with the intent of forming a network to amplify the results of their activities. The organizational meeting was held at the request of Dr. Steven E. Grable, M.D. The groups represented were: the Republican Liberty Caucus, several different Tea Party groups, the John Birch Society, Militia Orientated Personnel and Christian Church members. Enthusiasm and motivation appeared to be at a heightened level due to the concern of the so-called “New Normal”.

St. Augustine Tea Party [SATP] Chairman, Lance Thate, who was in attendance, reports that most of the leaders present have been operational in Northeast Florida “Grassroots Political” activity for over 10 years. Thate was impressed with the quality of leadership assembled. The SATP Chairman estimates that there are as many as 300 such leadership people in North East Florida. Dr. Grable will be the featured speaker at the next SATP open meeting scheduled for May 26, 2020. “Our Tea Party will longer stand down and we are eager to resume our activities,” the SATP Chairman said defiantly in a subsequent interview.

Politicians are about power and influence. Our founding fathers understood the frailty of human nature. They created a government that was limited and balanced to protect the people from the tyranny politicians are all too eager to administer.

Today we are witnessing, on an unprecedented scale, the corrupt nature of politicians and their imposition of the veil of tyranny across the land. The ever-increasing number of masks marks the scale of the magnitude of the tyranny.

Therefore it must be our task to encourage our fellow citizens to come forth peaceably into the streets and meet the tyranny head-on with courage and resolution befitting an American. A simple act of defiance could be the rejection of the tyrannical mask and thereby the “Face of Tyranny”.

Tea Party Makes History

Grassroots Movement is Alive and Continues

Photos by TCCR Staff

On May 26, 2020, the St. Augustine Tea Party (SATP) conducted its first regularly scheduled open meeting at the Growers Alliance Café in St. Augustine, Florida. The Tea Party has been meeting in restaurants bimonthly since 2010. With the shutdown of restaurants, the Tea Party was effectively shut down as well.

In fact, all political engagement has been shut down. The political activities of both parties, the “Trump Rallies” and the election processes have been impacted by the near universally ordered shutdowns. All this was done in the name of safety, augmented by the mainstream media’s projection of unwarranted fear.

Meanwhile, scummy politicians across the land rose out of the swamp waters to impose tyranny in America on a scale never seen before in modern times. However, Tea Party members believe they did this at their own peril. In America, we are not ruled, we are governed and we are governed because we give our consent. In America, the people have certain inalienable rights. Those rights cannot be violated under any circumstances. Those rights come, not from government, but from “Nature’s God”, in the words of our founding documents. Those rights include Life, Liberty and property.

Over the past 60 days, we have been stripped of our Liberty, our property and our lives in some States, such as New York, Pennsylvania, Ohio and Michigan. Governors in those States have committed nothing short of genocide to further their Communist agenda. It was the willful infusion of the “China Virus” among the most vulnerable, the old, the sick and the helpless prisoners in nursing facilities. All this was done to make the Pandemic hoax appear real.

FB Image

FB Image

Members of the SATP, starved of their Constitutional privilege, attended a meeting, in substantial numbers with overflow onto the patio areas, to hear Dr. Steven Grable, MD. Dr. Grable is a board-certified internist and, in addition, a practitioner of holistic medicine in Jacksonville, Florida.

Dr. Grable exposed Covid 19 as an influenza with a kill rate far less than normally associated with pandemics. He also warned about the dangers associated with vaccinations in general and encouraged people to follow the money for the truth. Bill Gates’ goal is not about saving lives, it’s about making money. Gates’ connection with the Rockefeller Foundation and the Rothschild’s was revealed.

that the Tea Party has been active in the Streets throughout the Shutdown.

SATP Chairman, Lance Thate, advised the group

“We see “Gadsden Flags” at the protests in the blue states, a sure sign that the grassroots political movement is alive, well and restless. We see the movement in Trump Rallies. We see the movement in meetings like this one. We see the movement in meetings like the one held by Dr. Grable a week ago in Jacksonville. We don’t see the movement residing in the two major political parties,” Thate said.

The restaurant appeared to be within the “Pandemic Guidelines” regarding the wearing of masks by their personnel and social distancing seating. There was a full dining room with overflow outside on the patio. But the patriotic members arrived as groups and choose to sit with their friends. Tea Party members, to a person, wore no masks. They understand that masks are worthless against viruses and a symbol of tyranny. A spirit of disobedience prevailed.

Photo by TCCR Staff

The St. Augustine Tea Party, in its small part of the world, made history. The struggle for political expression did not come from the Democrats. It looks like they’re going to hunker down until the complete collapse. It didn’t come from the Republicans, who are looking for permission from the Governor. It didn’t come from the Trump Clubs. It came from the Tea Party. You remember, those groups of individuals across the Country who started the movement in 2009?

“As the first political event in this area since the shutdown, you folks are making history. It will be people like you who will save the Republic,” Thate emphasized.

[Protest Rallies are back. Check out this recent rally in Sacramento, California. This was a Kris Anne Hall event. It was not necessarily a Tea Party event but it sure looks like a Tea Party rally in appearance. The movement lives on. The Editor] <https://www.facebook.com/100000373668146/posts/3200386523317105/>
